

## **Karoo Naturally Free**

Only farms in the immediate vicinity of the Karoo where there are no evidence of feedlots are allowed to produce animals for the “Karoo Naturally Free” Trademark.

The use of hormone and growth stimulants is not allowed. All withdrawal periods of medication are extended. Supplementary feed is only allowed in addition to free access to natural feed and water. Freedom of movement is a necessity and good management is a requirement.

For traceability purposes an animal stock register is a requirement.
