Foreword from Mr JM Venter

Chairman of SAMIC

It is my privilege to share some thoughts in SAMIC's annual report. The report provides an opportunity to reflect on the role, functions and achievements of SAMIC. Its contribution in the red meat value chain has relevance to ensuring the integrity of red meat in South Africa, thereby creating and maintaining consumer confidence:

SAMIC is an assignee of the state by appointment through the National Department of Agriculture, Forestry and Fisheries (DAFF) for the application of articles 3(1)(a) and (b) and 8 of the Agricultural Products Standards Act (Act 119 of 1990). These articles specifically apply to the classification and marking of red meat intended for sale in the Republic of South-Africa.

SAMIC co-ordinators perform this function in all nine provinces of South Africa. Their objective is to assure all role players in the red meat value chain of the quality of South African red meat by verifying the standards of meat classification at all participating meat classification abattoirs.

SAMIC's competence to act as assignee to conduct this and other related functions stems from its accreditation with SANAS* (South-African National Accreditation Systems) (ISO 17020), SAATCA** (Southern-African Auditor and Training Certification Authority) and SAACB*** (Southern-African Association of Certification Bodies).

In addition to this function, SAMIC is responsible for:

- Independent 3rd party audits of hides and skins at export stores for exportation through harbours.
- Independent 3rd party inspections at abattoirs and meat traders.
- Independent 3rd party inspections at classification and non-classification abattoirs, meat imports, as well as of hides and skins operations on behalf of the RMLA (Red Meat Levy Administrator).
- Independent 3rd party audits of Quality Indications as registered by DAFF on farms, feedlots, meat cutting plants, retail trade and restaurants .
- The practical and theoretical examination of student meat classifiers.
- Independent sample taking on meat products at outlets for DNA and ingredient tests.
- Independent sample taking on processed meat products for DNA tests.
- Arranging and managing carcass competitions which are highly regarded by the industry. These competitions provide an opportunity for producers to demonstrate their ability to produce world class products in accordance with market specifications and consumer preferences.

I extend my sincere appreciation to our executive director and personnel for good management and team work. They continue to manage the challenges of the industry and needs of the consumers.

I also thank my colleagues on the board for their contributions and support.

2016 ANNUAL REPORT

MEAT CLASSIFICATION STANDARDS CONTROL & QUALITY ASSURANCE

Classification Coordination

The Department of Agriculture assigned SAMIC the responsibility of ensuring that appropriate meat classification standards are applied in a uniform manner at those abattoirs that register voluntarily for the classification of their carcasses. This is according to the "Regulations regarding control over the sale of products in the Republic of South Africa" in the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990), and its regulations as amended R. 55 of 30 January 2015.

During 2016 various activities took place with regard to Standards Control, Assessing of Meat Classifiers, Carcass Competitions, Quality Assurance (Branding), Inspections at Classifying and Non Classifying Abattoirs for RMLA purposes and Auditing of Hides and Skins for Export purposes.

Active Abattoirs:

Classifying Abattoirs :	211
Non Classifying Abattoirs :	210

Co-Ordination Visits:

Abattoir Visits:	2 066 with 379 (18.3%) deviations found
Trade Visits:	2 834 with 246 (8.7%) deviations found

Testing of Meat Classifiers:

Beef	29
Small Stock	26
Pork	<u>32</u>
TOTAL	<u>87</u>

Refresher Courses:

Beef	116
Small Stock	140
Pork	<u>49</u>
TOTAL	<u>305</u>

National Carcase Competitions:

	Commercial	Emerging
Beef	19	3
Small Stock	27	4
Goat	2	1
Pork	<u>3</u>	<u>4</u>
TOTAL	51	12

Cleaver Award Audits: 96 Audits were done for the Cleaver Awards.

Branding: 1 755 Audits were done for thirty two (32) companies with 57 (3.2%) deviations found.

Red Meat Levy Inspections:

210 visits were done for levy inspection services at non classifying abattoirs.

422 visits were done for levy inspection services at classifying abattoirs.

Auditing of hides and skins for export purposes:

A total of 391 audits were done at Classifying and Non-Classifying Abattoirs for 2016. An additional 186 Abattoir stores were not interested regarding auditing Hides & Skins at their abattoirs.

A total of 75 intermediate store audits were done for 2016.

Totals of each category for the year 2016

1 370 classification audits were done on beef.

1 143 classification audits were done on small stock.

536 classification audits were done on pork.

2 834 classification audits were done at Meat Markets.

87 assessments were done on classification students.

305 refreshment courses were done on meat classifiers.

63 judgements were done on National Carcass Competitions.

96 audits were done on Cleaver Awards.

1 755 audits were done on 'Brand' auditing.

632 inspections for levy purposes both to classification and non-classification abattoirs.

466 audits on hides and skins both at abattoirs and intermediate stores for export purposes to the EU and other Eastern Countries.

9 287 audits, assessments, refreshment courses, judgements and inspections in total.

Corporate Governance

Preface

SAMIC supports the Code of Corporate Practices and Conduct as a manner of conducting the affairs of the Company with integrity and in accordance with the standards of corporate practice.

Board of Directors

The directors endorsed and, during the period under review, applied the Code of Corporate Practices and Conduct as set out in the King Report. By supporting the Code the directors have recognized the need to conduct the enterprise with integrity and in accordance with generally accepted corporate practices.

Financial Statements

The annual financial statements are the responsibility of the Company's directors and fairly represent the state of affairs and the results of the Company. The external auditors are responsible for independently reviewing and reporting on these financial statements.

Internal Control

The directors are responsible for instituting an effective system of internal control. In order to fulfill its responsibilities, management maintained adequate accounting records and developed and continued to maintain systems of internal records.

Management Reporting

Management reporting disciplines are in place, which include the preparation of the annual budget. Monthly results and the financial statements are reported against approved budgets and compared to the previous year.

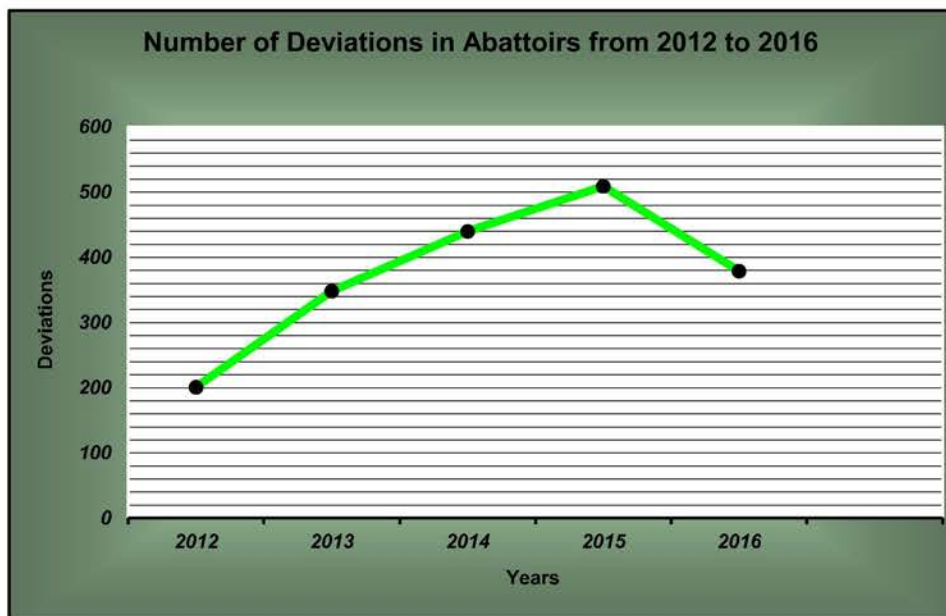

Rudi van der Westhuizen
Executive Director

Abattoir Visits

At present 211 abattoirs are registered as participants in the meat classification system. This is less than the previous year. Classifying of species from the 211 abattoirs are 170 beef, 168 small-stock and 81 pork. All registered abattoirs were subjected to at least 10 unscheduled audits per year in order to ensure that classification standards are applied consistently and on a continuous basis. In total, 2 066 visits were conducted during the past year (2 086 in 2015). A total of 379 deviations (509 in 2015) from the regulations were found.

	NUMBER OF DEVIATIONS AT ABATTOIRS FROM REGULATION	Jan-Dec '12 (1963 visits)	Jan-Dec '13 (1987 visits)	Jan-Dec '14 (2019visits)	Jan-Dec '15 (2086 visits)	Jan-Dec '16 (2066 visits)

15.	No sex determination marks on sheep or beef	-	6	4	2	1
16.	No MD marks on carcasses	-	8	2	3	0
	TOTAL	201	348	440	509	379

The most prominent problem area was with the number of deviations of fatness, conformation and damaging codes, no identification of the head of carcasses, carcasses not roller-marked or roller-marked incorrectly, incorrect age determination and the measurement position for pork classification is incorrect. This is directly the result of the unexperieneceness of meat classifiers at the particular abattoirs, where a turnover of 25% – 30% of meat classifiers in South Africa is experienced for the past year.

The way in which the rectifying of these deviations were dealt with is described in the sections **Meat Classifiers Refresher Courses** and **Number of Meat Classification Deviations – Abattoirs** somewhat later in this report.

Trade Visits

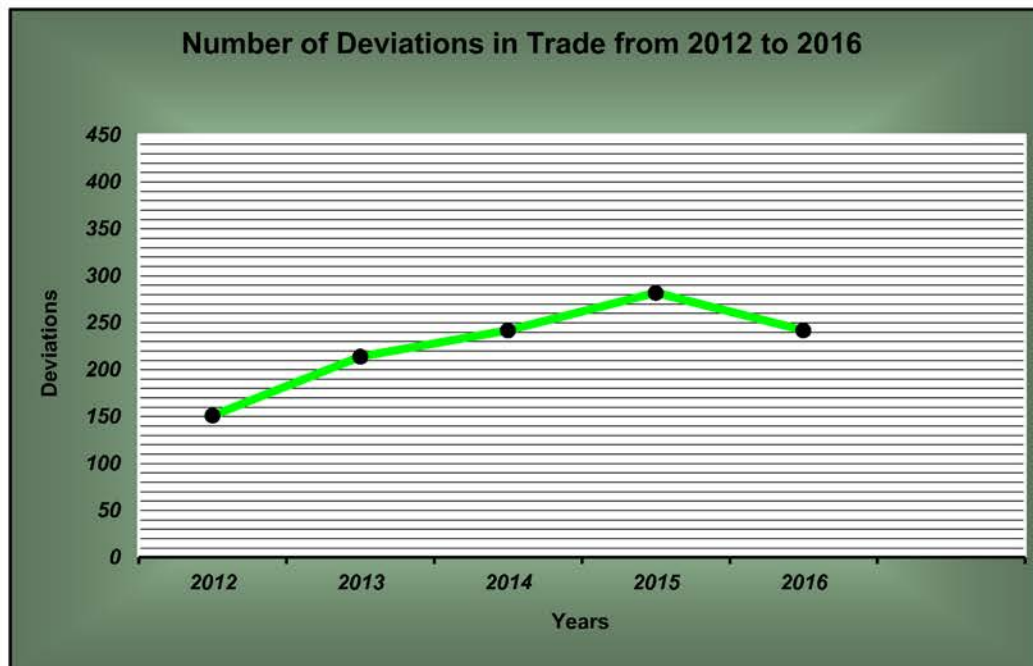

In total 2 834 visits (2 834 in 2015) were made to the meat trade. SAMIC regional inspectors / auditors found a total of 242 deviations (282 in 2015) from the regulations. The major problems were restricted particulars ('choice' / 'keur'), no stamp of approval of some registered abattoirs, untide, smudged roller marks, deviation on fatness classification, imported meat not identified, Trade Marks and imported meat not identify.

There is still an indication that the meat trade is not aware of the importance of correctly labelling imported meat products, to distinguish imported meat from local meat for the consumer at the point of sale.

When the deviations are found regarding the classification characteristics of carcasses / meat at trade outlets, eg deviations of fatness classification, untidy and smudged roller-marks, they are immediately reported telephonically to the Regional inspectors / auditors in whose region the abattoir/s of origin is/are situated. He/she can then institute rectifying steps.

The trend of Deviations at the Trade was decreasing in 2016 as reflected by the graph and the table. Trade owners also received in some instances warnings from the National Department of Agriculture, Forestry and Fisheries regarding Deviations applicable to the Agricultural Product Standards Act, Act Nr 119 of 1990

Service Fee for Co-ordination

At the end of 2016 there were no fees outstanding. In 2016 there was an increase of 3% on the co-ordination fees according to a decision of the SAMIC Board of Directors, which was also approved by the members of the Forum during the AGM of SAMIC.

Examining of Meat Classifiers

SAMIC is responsible for the assessing of meat classifiers. During 2016 a total of 87 classifiers qualified to classify either one, two or all three species.

Refresher Courses

SAMIC conducted standard refresher courses, which were attended by 305 meat classifiers during the year. In total 116, 140 and 49 refresher courses were conducted for beef, small stock and pork carcasses respectively.

Number of Meat Classification Deviations - Abattoirs

Where deviations of more than 6% occurred at abattoirs, such classifiers have to undergo refreshing.

National Carcass Competition

The National Carcass Competition has grown in stature over the years - from a small beginning in 1984 when there were only four beef carcass competitions. Currently (2016) there are 19 competitions for beef carcasses, 27 competitions for lamb carcasses, 2 competitions for goat carcasses and 3 competitions for pork carcasses – all deriving from commercial farmers. There are also 3 competitions for beef carcasses, 4 competitions for lamb carcasses, 1 competition for goat carcasses and 4 competitions for pork carcasses – all deriving from emergent farmers. A total of 459 commercial and 83 emergent producers have taking part in this competition on a countrywide basis.

The importance and value of this competition have for some time been underestimated by the red meat industry. The continuous emphasis on meat quality worldwide ties in with the aims of the competition, i.e. to produce carcasses according to market specifications and consumer requirements.

During the July 2015 to June 2016 cycle, 39 sponsorships were received. Total price-money were **R517 350,00** from our sponsors namely, André Kock & Seun Afslaers, Axxon (Pty)Ltd, Bonsmara Cattle Association, Brahman Cattle Association, Cape Gate, Carnarvon Abattoir, Cavalier Foods, Dorper, Farm Experts, Feedmaster, GWK Limited, Ile de France, KLK Landbou Beperk, Landbank, Lubern Voere, Macks Petroleum Vryburg, Meadow Meats, Meat to Market Abattoir, Molatek, NERPO, Old Mutual, Opti Feeds, Oukraal Slaghuys, Pick 'n Pay, Premier Pork Producers, RPO, SAVPO, Sernick, Shoprite / Checkers, Simmentaler / Simbra Cattle Association, Spar, Spar Delareyville, Stella Vleis, Sussex Cattle Association, SWG Abattoir, Voermol Veevoere, Vryburg Abattoir, Werda Abattoir and Woolworths.

The quality of the entrants received in the current cycle has been from the best since the start of the competition 32 years ago. The following summary of results is indicative of this fact. The quality of the entries is currently on a very high level for the National Competitions for beef, lamb and goat carcasses. However, there are still opportunities for increasing the participation by emergent farmers.

There was a decrease in entries from **1 773 (2015)** to **1 665 (2016)** animals for the beef carcass competition - lamb down from **2 756 (2015)** to **2 047 (2016)** animals and goats down from **114 (2015)** to **78 (2016)** animals and pork down from **384 (2015)** to **144 (2016)** animals for the National Carcass Competition for commercial farmers and **143 (2015)** down to **122 (2016)** Beef, **297 (2015)** up to **316 (2016)** lamb, **43 (2015)** down to **30 (2016)** goats and **185 (2015)** down to **181 (2016)** pigs for the emergent farmers, mostly due to a serious draught over the last few years.

During this cycle, highest points were awarded to a Bonsmara carcass in the beef carcass competition, to a Dorper carcass in the lamb carcass competition, to a Boerbok carcass in the goat carcass competition and to a Landras/Large White in the pork carcass competition.

Branding

Branding, as a marketing tool, is becoming more important in the red meat industry and some suppliers have already successfully developed niche markets for their branded products. Traceability forms an integral part of branding and it is therefore important that the traceability system of a brand be firmly established and verified by an independent authority.

SAATCA

SAMIC, with its accreditation by the Southern African Auditor and Training Certification Association (SAATCA) as auditors, verified 32 registered trademarks/brands representing 1 755 audits on behalf of brand owners and were responsible for ensuring that these brands were applied correctly.

SANAS

The South African National Accreditation System (SANAS) is the only National Body responsible for carrying out accreditations in respect of conformity assessment, as mandated through the Accreditation for Conformity Assessment, Calibration and Good Laboratory Practice Act (Act 19 of 2006). This also includes accreditation of inspection bodies. Accreditation means third-party attestation related to conformity assessment bodies conveying formal demonstration of their competence to carry out specific conformity assessment tasks.

SAMIC applied for accreditation against ISO 17020 as an inspection body.

We are pleased to announce that SAMIC as appointed by the National Department of Agriculture Forestry and Fisheries under section 2(3), of the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) for the purpose of the application of, section 3(1)(a) and (b), 7 and 8 of the said Act with regards to the classification and marking of meat intended for sale in the Republic of South-Africa, has been approved by SANAS as an Inspection Body (INSP0036), Type A as from 17 February 2017.

SAACB

The Southern-African Association of Certification Bodies (SAACB) was founded in May 1998 with nine founder members. Although based in South-Africa, members operate in Southern-Africa and the Indian Ocean Islands. The SAACB is a registered Non-profitable Company (NPC) and is recognized by the South-African National Accreditation System (SANAS).

With the mission of promoting accredited certification and adhering to the Code of Conduct, SAACB members are contributing to the overall success of the certification industry in South-Africa. All members have management systems conforming to ISO 17021:2011 in place to address consistency. All members have systems based on IAF and Accreditation Body endorsed practices.

We are pleased to announce that SAMIC as appointed by the National Department of Agriculture, Forestry and Fisheries under Section 2(3) of the Agricultural Product Standards Act, 1990 (Act Nr. 119 of 1990) for the purpose of the application of section 3(1)(a) and (b), 7 and 8 of the said Act with regards to the classification and marking of meat intended for sale in the Republic of South-Africa, has been accepted by SAACB as an associated member as from 11th April 2017.

ClassiQuip

ClassiQuip, a division of SAMIC, is the sole agent to distribute all classification equipment in the red meat industry. Stamps for eg. age identification, fatness, conformation, damage and M/D classes as specified in the regulations, as well as roller-marking equipment and edible ink with specifications for each purpose for the marking of carcasses, etc are supplied.

Hides & Skins Inspection Service Certification

SAMIC is assigned by Government to inspect, verify and certify the slaughter intensity and quality of hides and skins for export purposes from Port Elizabeth and Cape Town harbours.
