## **Foreword**

By Mr JM Venter  
Chairman of SAMIC

While the adverse climatic conditions were a determining factor in an eventful year in agriculture and the red meat industry in 2017, SAMIC experienced a stable and successful business year under the capable leadership of its executive director.

The company has a compact, but effective personnel team to cover the country in conducting a variety of functions vital to the integrity of products in the country's red meat value chain. In the process SAMIC makes an important contribution to the commercial success of its members. The Executive Director's annual report provides a complete review of SAMIC's activities.

Thank you to the team for their input and dedication in attending to classification inspections and audits, trade visits, trademark audits, training of students, import verifications, etc.

The capable participation of my board colleagues in their fiduciary role contributed to the maintenance of appropriate corporate governance measures of the company. Transparency and disclosure are the core responsibilities of board members in confirming the content and integrity of the financial statements and information contained therein. Owing to the small number of directors, it remains impractical to have separate specialist governance committees to fulfil supervisory duties. The board members continue jointly to oversee the integrity of audit, risk, remuneration, internal financial control and related matters. I thank them for their valued contributions and teamwork.

SAMIC's memorandum of incorporation was reviewed during the year and is submitted to the meeting for members' consideration and approval. The revised MOI, inter alia, will assist the company in expanding its number of directors and ease the intended process of board member transformation.

The legal process initiated by the Vegetable Industry's opposition to assignee regulations is being attended to by Adv Kugel and retained legal counsel. In this regard and in contrast to the Vegetable Industry, it is to be borne in mind that the classification system is not compulsory; it is a voluntary system linked to price and its terms are annually approved by members of the red meat industry.

SAMIC is well placed in continuing to sustain consumer confidence by verifying the standards of meat classification and trademarks at the vast

majority of abattoirs and trade outlets in service of the red meat industry of South Africa.

SAMIC values the support of its members and the industry.

## **Accrediting bodies**

### **SANAS**

**SANAS** is an acronym for the South African National Accreditation System. **SANAS** is recognised by the South African Government in Act 19 of 2006 as the single National Accreditation Body that gives formal recognition that amongst others, Inspection Bodies are competent to carry out specific tasks. Following the **SANAS** Approval Committee meeting on 31 August 2017, unconditional accreditation has been granted in accordance with ISO/IEC 17020:2012 to **SAMIC** (INSP0036) to supply the service of an inspection body as an assignee by the Department of Agriculture, Forestry and Fisheries (DAFF) in terms of Regulations No. 55 of 2015, Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) as amended.

### **SAATCA**

**SAATCA** is an acronym for the South African Auditor & Training Certification Authority . **SAATCA's** mission is to recognize and address amongst others the need within the Southern African industry for competent and credible Product and process Auditors who can deliver both professional and value-adding auditing services to support, enhance and positively impact strategic, operational and organization-wide performance objectives in pursuit of optimal business excellence, thus "***Raising business confidence***". **SAMIC** is a member of SAATCA and all our auditors are registered with **SAATCA**.

### **SAACB**

**SAACB** is an acronym for the Southern African Association of Certification Bodies. With the mission of promoting accredited certification and adhering to the Code of Conduct, **SAACB** members are contributing to the overall success of the certification industry in South Africa. All members have management systems conforming to ISO 17021:2011 in place to address consistency. All members have systems based on IAF and Accreditation Body endorsed practices. **SAMIC** is an associate member of the **SAACB**.

## **Classification Coordination**

The Department of Agriculture assigned SAMIC the responsibility of ensuring that appropriate meat classification standards are applied in a uniform manner at those abattoirs that register voluntarily for the classification of their carcasses. This is according to the "Regulations regarding control over the sale of products in the Republic of South Africa" in the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990), and its regulations.

During 2017 various activities took place with regard to Standards Control, Assessing of Meat Classifiers, Carcass Competitions, Quality Assurance (Branding), Inspections at Classifying and Non Classifying Abattoirs for RMLA purposes and Auditing of Hides and Skins for Export purposes.

## **Corporate Governance**

### **Preface**

SAMIC supports the Code of Corporate Practices and Conduct as a manner of conducting the affairs of the Company with integrity and in accordance with the standards of corporate practice.

### **Board of directors**

The directors endorsed and, during the period under review, applied the Code of Corporate Practices and Conduct as set out in the King Report. By supporting the Code the directors have recognized the need to conduct the enterprise with integrity and in accordance with generally accepted corporate practices.

### **Financial statements**

The annual financial statements are the responsibility of the Company's directors and fairly represent the state of affairs and the results of the Company. The external auditors are responsible for independently reviewing and reporting on these financial statements.

### **Internal control**

The directors are responsible for instituting an effective system of internal control. In order to fulfill its responsibilities, management maintained adequate accounting records and developed and continued to maintain systems of internal records.

### **Management reporting**

Management reporting disciplines are in place, which include the preparation of the annual budget. Monthly results and the financial statements are reported against approved budgets and compared to the previous year.

---

Rudi van der Westhuizen  
Executive Director

## **Abattoirs**

### **Abattoir Visits**

The number of abattoirs that are registered as participants in the meat classification system decreased from the previous year:

	<b>2017</b>	<b>2016</b>	<b>Change</b>	<b>Change %</b>
Registered abattoirs	203	211	Decrease	-4%

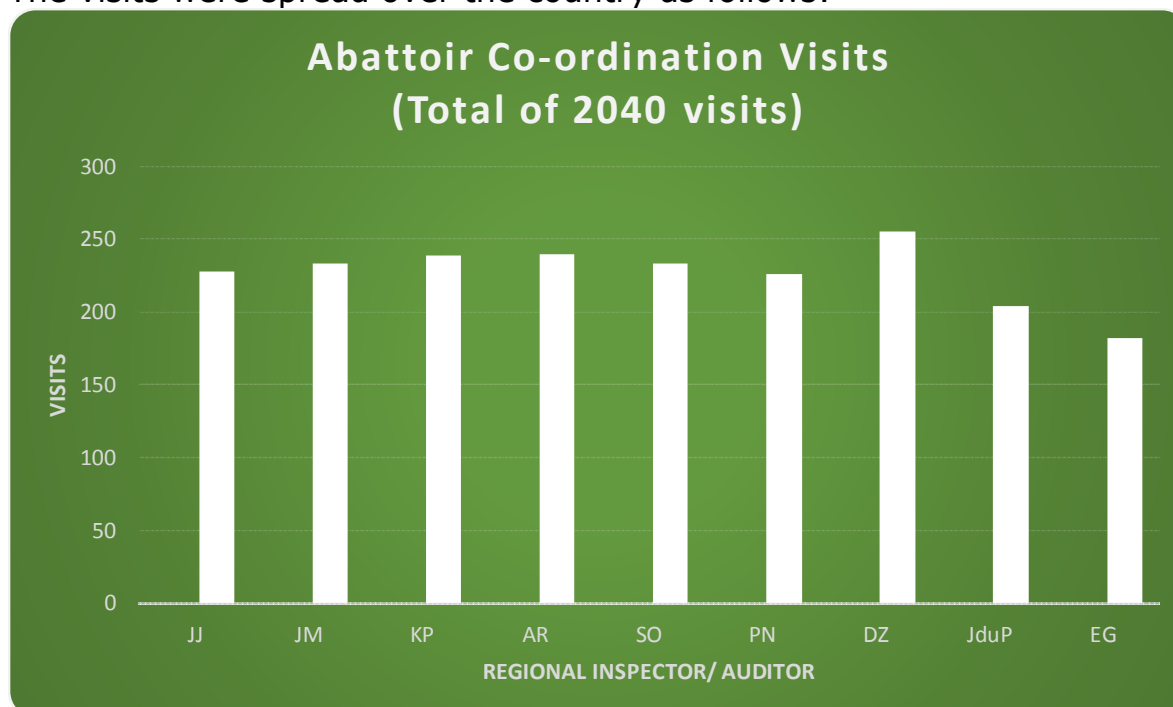

The classifying of species of the above abattoirs are:

<b>Specie</b>	<b>2017</b>	<b>2016</b>	<b>Change</b>	<b>Change %</b>
Beef	163	170	Decrease	-4%
Small stock	166	168	Decrease	-1%
Pork	78	81	Decrease	-4%

All registered abattoirs were subjected to at least ten unscheduled audits per year in order to ensure that classification standards are applied consistently and on a continuous basis. The total visits and deviations found from the regulations:

	<b>2017</b>	<b>2016</b>	<b>Change</b>	<b>Change %</b>
Total visits	2 040	2 066	Decrease	-1%
Total deviations	305	246	Increase	24%
Deviation percentage	15%	18%	Decrease	-18%

The visits were spread over the country as follows:

For detail of the number of visits performed by regional inspector/ auditor at each abattoir refer to the **2017 Abattoir Co-ordination Visit** section.

28	Other	14	6	5	1	0
	<b>Total</b>	<b>348</b>	<b>440</b>	<b>509</b>	<b>379</b>	<b>305</b>

The most prominent problem area was with the number of deviations of fatness and the measurement position for pork classification is incorrect. For detail of the deviations of fatness per abattoir refer to section **2017 Average % Deviations of Fat Codification Standards**.

The trend of deviations at abattoirs is decreasing in this year as reflected by the graph and the table, especially with deviation of fatness classification, conformation and damaging codes, age determination incorrect and no age identification of the head or carcass.

The number of deviations noted is directly the result of the lack of experience of meat classifiers at the particular abattoirs, where a turnover of 25% – 30% of meat classifiers in South Africa is experienced for the past year. New meat classifiers are assessed by SAMIC as discussed in the **Assessing of Meat Classifiers** section.

In order to rectify these deviations noted, classifiers have to undergo refreshing training where deviations of more than 6% occurred at abattoirs. Refer to the **Refresher courses** section for further details.

### **Service Fee for Co-ordination**

In 2017 there was an increase of 3% on the co-ordination fees according to a decision of the SAMIC Board of Directors. At the end of 2017 there were no fees outstanding.

### **Assessing of Meat Classifiers**

SAMIC is responsible for the assessing of meat classifiers. During 2017 classifiers as indicated in the table below qualified to classify either one, two or all three species.

<b>Testing of Meat Classifiers:</b>	<b>2017</b>	<b>2016</b>	<b>Change</b>
Beef	27	29	Decrease
Small Stock	15	26	Decrease
Pork	16	32	Decrease
<b>Total classifiers assessed</b>	<b>44</b>	<b>87</b>	Decrease

For detail of the persons assessed as meat classifiers in the current year refer to the **2017 Assessing of Meat Classifiers** section.

### **Refresher courses**

SAMIC conducted standard refresher courses for beef, small stock and pork carcasses with attendance by meat classifiers as follows:

<b>Refresher Courses:</b>	<b>2017</b>	<b>2016</b>	<b>Change</b>
Beef	86	116	Decrease
Small Stock	158	140	Increase
Pork	38	49	Decrease
<b>Total attendees of refresher courses</b>	<b>271</b>	<b>305</b>	Decrease

For details of the refresher course attendees for the current year refer to the **2017 Meat Classification Refresher Courses** section.

### **National Carcass Competition**

The National Carcass Competition has grown in stature over the years - from a small beginning in 1984 when there were only four beef carcass competitions to the following for the current year:

<b>NUMBER OF COMPETITIONS 2016/ 2017</b>		
<b>Number of competitions</b>	<b>Commercial farmers</b>	<b>Emergent farmers</b>
Beef	25	5
Sheep	28	4
Goat	2	-
Pork	2	4
<b>Total</b>	<b>57</b>	<b>13</b>

It is estimated that 541 commercial and 62 emergent producers are currently taking part in this competition on a countrywide basis.

The importance and value of this competition have for some time been underestimated by the red meat industry. The continuous emphasis on meat quality worldwide ties in with the aims of the competition, i.e. to produce carcasses according to market specifications and consumer requirements.

During the July 2016 to June 2017 cycle, 35 sponsorships were received. Total prize-money were **R 473 300,00** from our sponsors namely, African Skins, André Kock & Seun Afslaers, ATKA Trading 219, Axxon (Pty)Ltd, Bonsmara Cattle Association, Brahman, Cape Gate, Carnarvon Abattoir, Cavalier Foods, Dorper, Farm Experts, Feedmaster, FNB, GWK Limited, Ile de France, KKK Landbou Beperk, Landbank, Lubern Voere, Meadow Meats, Meat to Market Abattoir, Molatek, NERPO, Old Mutual, Oukraal Slaghuis, Pick 'n Pay, RPO, SAVPO, Sernick Shoprite / Checkers, Spar, Spar Delareyville, Stella Vleis, SWG Abattoir, Voermol Veevoere, Vryburg Abattoir and Woolworths.

The quality of the entrants received in the current cycle has been from the best since the start of the competition 33 years ago. The following summary of results is indicative of this fact. The quality of the entries is currently on a very high level for the National Competitions for beef, lamb and goat carcasses. However, there are still opportunities for increasing the participation by emergent farmers.

There has been an overall increase in the number of entries received in the current year:

<b>NUMBER OF ENTRIES</b>			
<b>Commercial farmers</b>			
<b>Number of entries</b>	<b>2015/2016</b>	<b>2016/2017</b>	<b>Change</b>
Beef	1 665	2 009	Increase
Sheep	2 047	1 933	Decrease
Goat	78	80	Increase
Pork	144	187	Increase
<b>Total</b>	<b>3 934</b>	<b>4 209</b>	<b>Increase</b>
<b>Emergent farmers</b>			
<b>Number of entries</b>	<b>2015/2016</b>	<b>2016/2017</b>	<b>Change</b>
Beef	122	227	Increase
Sheep	316	180	Decrease
Goat	30	-	Decrease
Pork	181	210	Increase
<b>Total</b>	<b>649</b>	<b>617</b>	<b>Decrease</b>
<b>Overall</b>	<b>4 583</b>	<b>4 826</b>	<b>Increase</b>

During this cycle, highest points were awarded to a Bonsmara carcass in the beef carcass competition, to a Dorper carcass in the lamb carcass competition, to a Boerbok carcass in the goat carcass competition and to Topigs in the pork carcass competition.

For details of the national carcass competitions for the current year refer to the **2017 National Carcass Competitions** section.

### **Cleaver Awards**

An initiative of the South African Red Meat Industry Forum, these awards acknowledge butcheries, which meet consumer expectations on in-store hygiene, the supply of quality assured roller marked South African Beef, their level of competency in offering the best advice on meat preparations and perceived value for money. The Cleaver Awards were introduced in 2005 to meet the needs of the consumer by raising the standards among butcheries. Since these awards started 11 years ago, butchery standards have improved and feedback from customers show that the majority perceive the Cleaver Awards to be a seal of approval. SAMIC conducts the audits for the Cleaver awards.

The number of audits performed for this purpose decreased from the prior year:

<b>Cleaver Award Audits:</b>	<b>2017</b>	<b>2016</b>	<b>Change</b>
Audits done for cleaver awards:	88	96	Decrease

For details of the cleaver award audits performed in the current year refer to the **2017 Cleaver Award Audits** section.

### **Meat Samples**

Meat samples are collected nationally from butcheries and retailers. These samples are analysed for DNA at the South African National Biodiversity Institute (SANBI) at the National Zoological Gardens (NZG) and ingredient testing is done at IDEXX. Both these laboratories are accredited facilities. Appropriate action is taken on the basis of results.

### **Visits at Abattoirs Not Classifying**

The visits by our regional co-ordinators to non-classifying abattoirs are shown in the table below. The aim of the visits is to ensure that all abattoirs in the country are registered for paying levies to the Red Meat Levy Administrator. The same rules apply for all meat outlets in the country.

Visits at abattoirs	Number of visits									Total
	JJ	JM	KP	AR	SO	PN	DZ	JduP	EG	
Actual total abattoirs visits for the year	53	10	20	11	18	30	15	26	11	194

Total % abattoirs visits done for the year	100%	100%	100%	100%	100%	100%	100%	100%	100%	100%

### **ClassiQuip**

ClassiQuip, a division of SAMIC, is the sole agent to distribute all classification equipment in the red meat industry. Stamps, for example age identification, fatness, conformation, damage and M/D classes as specified in the regulations, as well as roller-marking equipment and edible ink with specifications for each purpose for the marking of carcasses, are supplied.

## **Trade**

### **Trade visits**

The total visits made to the meat trade and the deviations from regulations found by SAMIC regional managers:

	<b>2017</b>	<b>2016</b>	<b>Change</b>	<b>Change %</b>
Total visits	2 913	2 834	Increase	3%
Total deviations	180	246	Decrease	-27%
Deviation percentage	6%	8.7%	Decrease	-29%

These visits were spread over the country as follows:

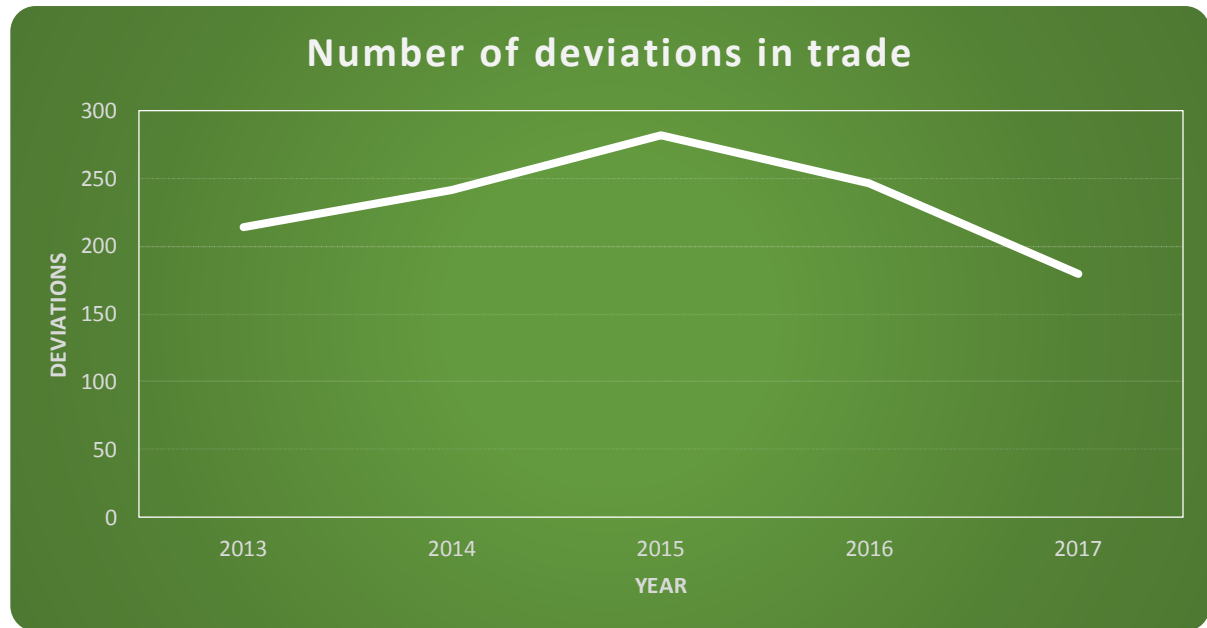

### **Deviations from Regulations- Trade**

The major problems were restricted particulars ('choice' / 'keur'), no stamp of approval of some registered abattoirs, untidy, smudged roller marks, imported meat not identified, unclassified sheep sold as lamb and indicated deviations used in relation to advertisements, noticeboards and other means..

There is still an indication that the meat trade is not aware of the importance of correctly labelling imported meat products, to distinguish imported meat from local meat for the consumer at the point of sale.

The trend of Deviations at the Trade is decreasing in this year as reflected by the graph and the table, especially with restricted particulars, no stamp of approval of some registered abattoirs and untidy, smudged roller marks. Trade owners also received in some instances warnings from the National Department of Agriculture, Forestry and Fisheries regarding Deviations applicable to the Agricultural Product Standards Act, Act Nr 119 of 1990.

When the deviations are found regarding the classification characteristics of carcasses / meat at trade outlets, eg deviations of fatness classification, untidy and smudged roller-marks, they are immediately reported telephonically to the Regional Co-ordinator in whose region the abattoir/s of origin is/are situated. He/she can then institute rectifying steps.

## **Quality Indication Marks**

Quality indication marks, as a marketing tool, is becoming more important in the red meat industry and some suppliers have already successfully developed niche markets for their quality indicated products. Traceability forms an integral part of quality indication marks and it is therefore important that the traceability system of a quality indication mark be firmly established and verified by an independent authority.

The current year has seen an increase in the number of audits done for quality indication marks together with an increase in the number of quality indication marks being audited.

<b>Quality Indication Marks:</b>	<b>2017</b>	<b>2016</b>	<b>Change</b>
Number of audits done	2 437	1 755	Increase
Number of quality indication marks	51	32	Increase
Number of deviations	68	57	Increase

The following table indicates the number of audits performed per quality mark by the various inspector/ auditors. Instances of non-compliance is indicated in the "NCY" column.

For the detail of the hide and skins audits performed by the various inspector/ auditors refer to the **2017 Hide and Skins Inspections Detail** section.

## **Financial Results**

The financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008. The accounting policies have been applied consistently compared to the prior year.

In the face of the adverse climatic conditions experienced in the current year in agriculture and the red meat industry, SAMIC experienced a stable and successful business year.

SAMIC experienced a slight increase in revenue in the current year when compared to that of the prior year which resulted in an increased comprehensive income. The investments held experienced favourable growth in the current year. Due to the continued positive annual results SAMIC's retained equity continued to show positive growth. The cash flow of the company also improved in comparison to that of the prior year.

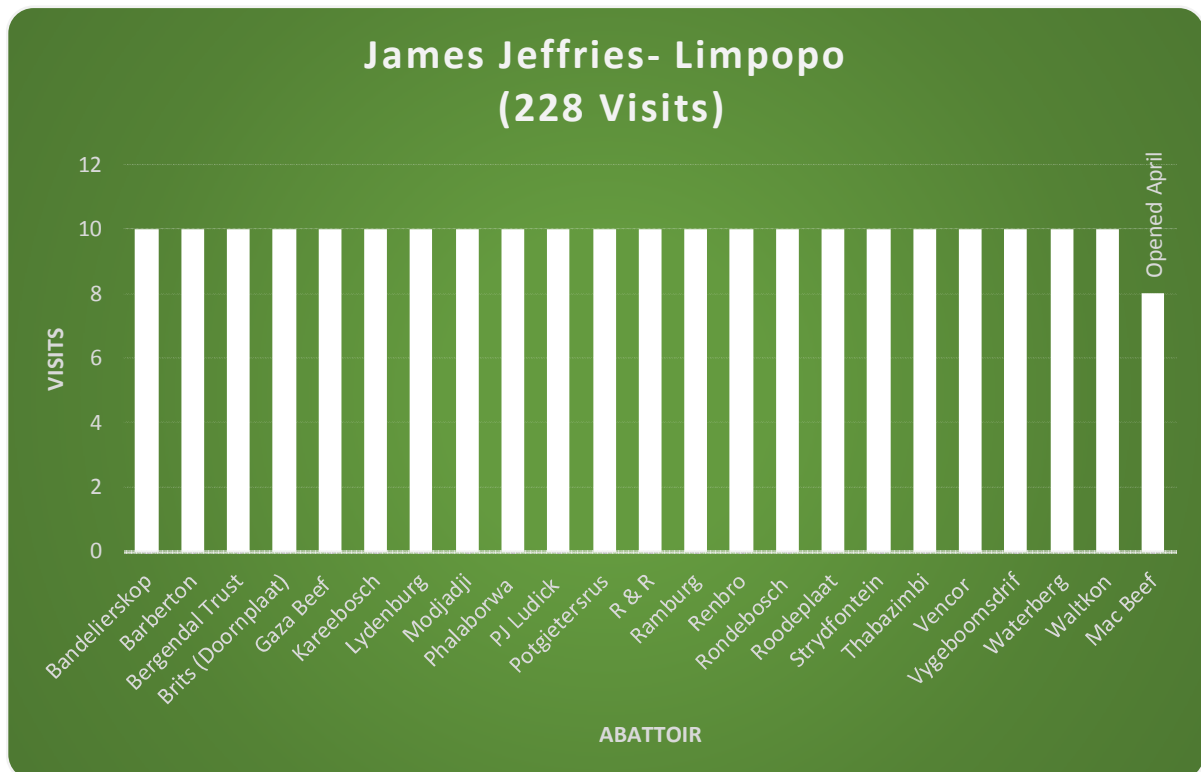

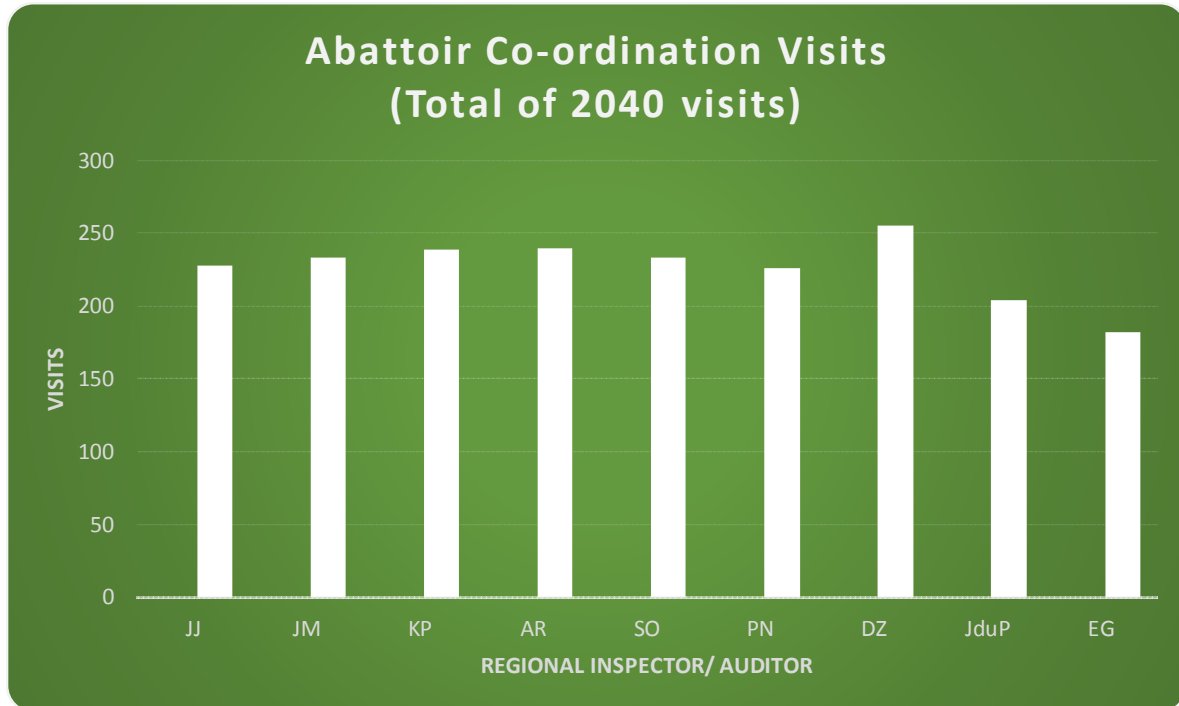

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient funds to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

JTC Chartered Accountants (S.A) Incorporated continued in office as auditors for the company for 2017 and issued an unqualified audit report.

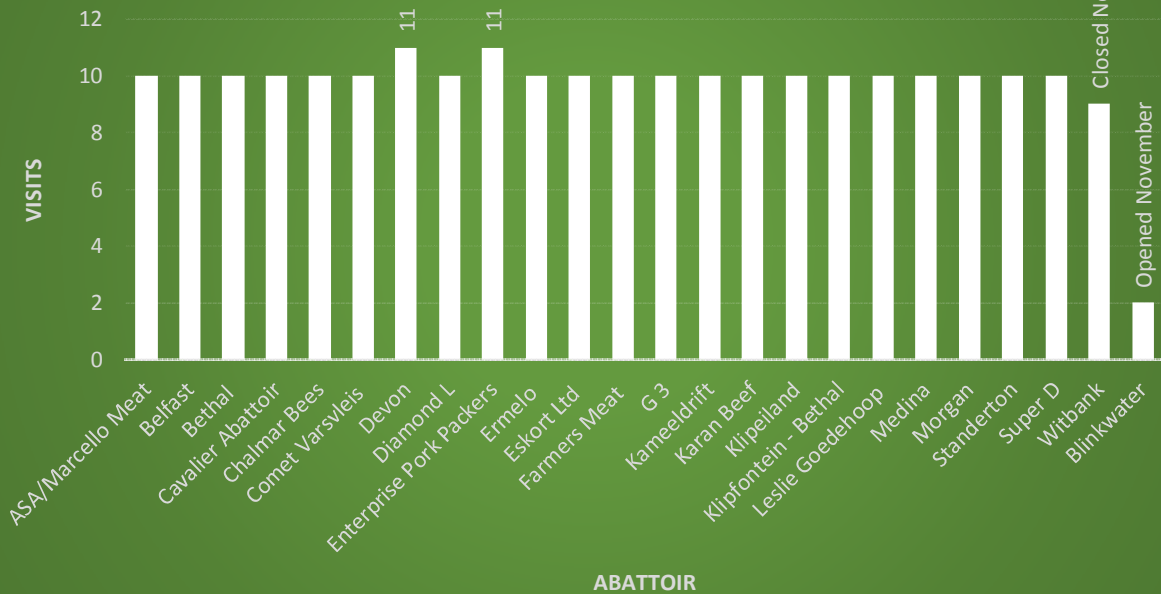

For the abbreviated financial statements refer to the **2017 Abbreviated Financial Statements** section. The complete audited financial statements are available at the offices of the South African Meat Industry Company NPC.
