Foreword

Adv Les Kügel
Acting Chairman of SAMIC

While adverse climatic and economic conditions continued to make its impact felt during the year under review, SAMIC continued to excel under the experienced and capable leadership of its Executive Director and management team.

The Executive Director`s Annual Report provides a complete overview of SAMIC`s operational activities but it is evident that the company through the efforts of its loyal and competent employees continue to meet and exceed the expectations of its stakeholders and customers in attending to classification inspections and audits, trade visits, quality indication mark audits, assessing of students and import verifications during trade inspections.

SAMIC is well placed to continue sustaining consumer confidence by verifying the standards of meat classification and quality indication marks at the vast majority of abattoirs and trade outlets in service of the red meat industry of South Africa.

One of the uncertainties facing SAMIC at the moment is the ongoing court case by the vegetable industry against the appointment of assignees by the Department of Agriculture, Forestry and Fisheries under the Agricultural Products Standards Act, 1990. Whilst SAMIC is not directly involved in this matter at all, the outcome thereof could also seriously impact SAMIC`s appointment as assignee under that Act. Accordingly, SAMIC has budgeted for and is actively defending the matter which is expected to go to court in October 2019.

At board level, the loyal participation of my board colleagues and the seriousness with which they view their fiduciary responsibilities continued to contribute to the maintenance of appropriate oversight of SAMIC`s activities and its ongoing success. Owing to the small number of directors, it remains impractical to have separate specialist governance committees to fulfil supervisory duties, and board members continue to jointly oversee the integrity of audit, risk, remuneration, internal financial control and related matters. I thank them for their valued contributions and teamwork.

SAMIC`s amended Memorandum of Incorporation was approved during the last Annual General Meeting and makes provision for the current Board of Directors to be expanded. This will assist the company in increasing its number of directors and ease the process of board member transformation. It is expected that suitable candidates will be appointed at the 2019 Annual

General Meeting, and SAMIC's board has also put independent candidate names forward for possible consideration.

SAMIC values the continued support of its members and the industry in maintaining a world-class certification authority of which the red meat industry can be justifiably proud.

Accrediting bodies

SANAS

SANAS is an acronym for the South African National Accreditation System. **SANAS** is recognised by the South African Government in Act 19 of 2006 as the single National Accreditation Body that gives formal recognition that amongst others, Inspection Bodies are competent to carry out specific tasks. Following the **SANAS** Approval Committee meeting on 31 August 2017, unconditional accreditation has been granted in accordance with ISO/IEC 17020:2012 to **SAMIC** (INSP0036) to supply the service of an inspection body as an assignee by the Department of Agriculture, Forestry and Fisheries (DAFF) in terms of Regulations No. 55 of 2015, Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) as amended.

SAATCA

SAATCA is an acronym for the South African Auditor & Training Certification Authority. **SAATCA's** mission is to recognize and address amongst others the need within the Southern African industry for competent and credible Product and process Auditors who can deliver both professional and value-adding auditing services to support, enhance and positively impact strategic, operational and organization-wide performance objectives in pursuit of optimal business excellence, thus "**Raising business confidence**". **SAMIC** is a member of SAATCA and all our auditors are registered with **SAATCA**.

SAACB

SAACB is an acronym for the Southern African Association of Certification Bodies. With the mission of promoting accredited certification and adhering to the Code of Conduct, **SAACB** members are contributing to the overall success of the certification industry in South Africa. All members have management systems conforming to ISO 17021:2011 in place to address consistency. All members have systems based on IAF and Accreditation Body endorsed practices. **SAMIC** is an associate member of the **SAACB**.

Classification Coordination

The Department of Agriculture, Forestry and Fisheries assigned SAMIC the responsibility of ensuring that appropriate meat classification standards are applied in a uniform manner at those abattoirs that register voluntarily for the classification of their carcasses. This is according to the "Regulations regarding control over the sale of products in the Republic of South Africa" in the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990), and its amended regulations.

During 2018 various activities took place with regard to Standards Control, Assessing of Meat Classifiers, Carcass Competitions, Quality Assurance (Branding), Inspections at Classifying and Non Classifying Abattoirs for RMLA purposes and Auditing of Hides and Skins for Export purposes.

Corporate Governance

Preface

SAMIC supports the Code of Corporate Practices and Conduct as a manner of conducting the affairs of the Company with integrity and in accordance with the standards of corporate practice.

Board of directors

The directors endorsed and, during the period under review, applied the Code of Corporate Practices and Conduct as set out in the King Report. By supporting the Code the directors have recognized the need to conduct the enterprise with integrity and in accordance with generally accepted corporate practices.

Financial statements

The annual financial statements are the responsibility of the Company's directors and fairly represent the state of affairs and the results of the Company. The external auditors are responsible for independently reviewing and reporting on these financial statements.

Internal control

The directors are responsible for instituting an effective system of internal control. In order to fulfil its responsibilities, management maintained adequate accounting records and developed and continued to maintain systems of internal records.

Management reporting

Management reporting disciplines are in place, which include the preparation of the annual budget. Monthly results and the financial statements are reported against approved budgets and compared to the previous year.

Rudi van der Westhuizen
Executive Director

Abattoirs

Abattoir Visits

The number of abattoirs that are registered as participants in the meat classification system increased from the previous year:

	2018	2017	Change	Change %
Registered abattoirs	206	203	Increase	1%

The classifying of species of the above abattoirs are:

Specie	2018	2017	Change	Change %
Beef	162	163	Decrease	-1%
Small stock	164	166	Decrease	-1%
Pork	85	78	Increase	9%

All registered abattoirs were subjected to at least ten unscheduled audits per year in order to ensure that classification standards are applied consistently and on a continuous basis. The total visits and deviations found from the regulations:

	2018	2017	Change	Change %
Total visits	2 084	2 040	Increase	2%
Total deviations	218	305	Decrease	15%
Deviation percentage	10%	15%	Decrease	5%

The visits were spread over the country as follows:

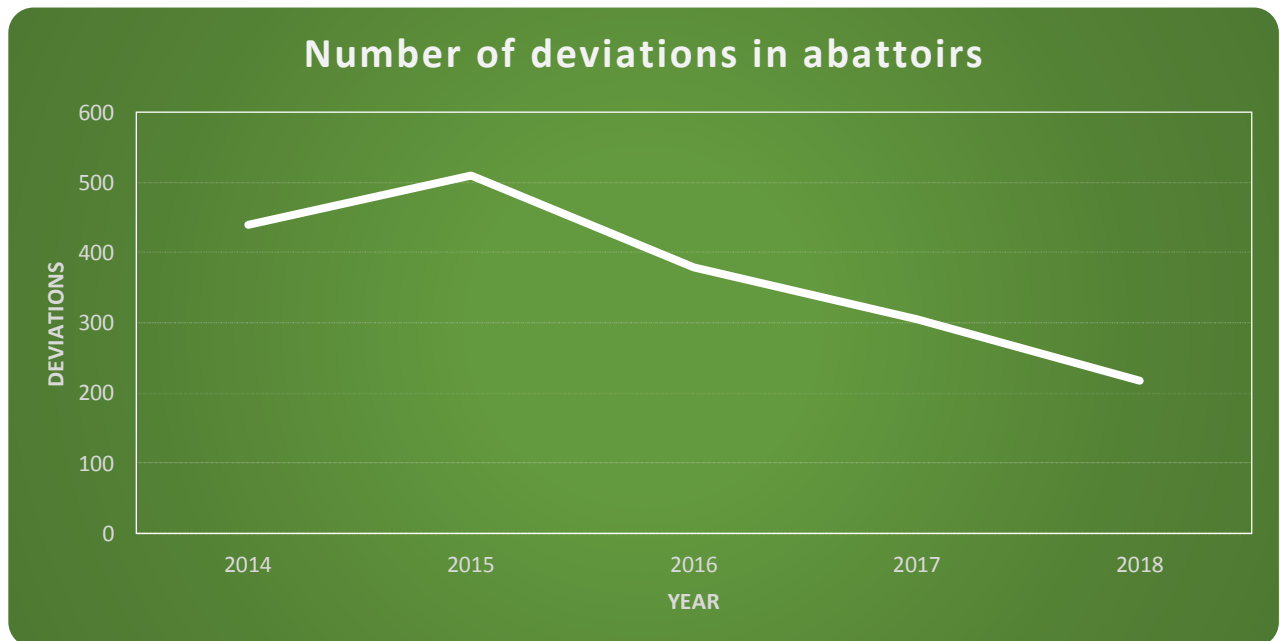

For detail of the number of visits performed by regional inspectors/ auditors at each abattoir refer to the **2018 Abattoir Co-ordination Visit** section.

28	Other	6	5	1	0	0
Total		440	509	379	305	218

The most prominent problem area was with the number of deviations of fatness and the measurement position for pork classification is incorrect. For detail of the deviations of fatness per abattoir refer to section **2018 Average % Deviations of Fat Codification Standards**.

The trend of deviations at abattoirs is decreasing in this year as reflected by the graph and the table, especially with deviation of fatness classification, conformation and damaging codes, age determination incorrect and no age identification of the head or carcass.

The number of deviations noted is mostly the result of the lack of experience of meat classifiers at the particular abattoirs, where a turnover of 15% – 20% of meat classifiers in South Africa is experienced for the past year. New meat classifiers are assessed by SAMIC as discussed in the **Assessing of Meat Classifiers** section.

In order to rectify these deviations noted, classifiers have to undergo refreshing training where deviations of more than 6% occurred at abattoirs. Refer to the **Refresher courses** section for further details.

Service Fee for Co-ordination

In 2018 there was an increase of 3.5% on the co-ordination fees according to a decision of the SAMIC Board of Directors. At the end of 2018 there were no fees outstanding.

Assessing of Meat Classifiers

SAMIC is responsible for the assessing of meat classifiers. During 2018 classifiers as indicated in the table below qualified to classify either one, two or all three species.

Assessing of Meat Classifiers:	2018	2017	Change
Beef	23	27	Decrease
Small Stock	27	15	Increase
Pork	25	16	Increase
Total assessments	75	58	Increase

For detail of the persons assessed as meat classifiers in the current year refer to the **2018 Assessing of Meat Classifiers** section.

Refresher courses

SAMIC conducted standard refresher courses for beef, small stock and pork carcasses with attendance by meat classifiers as follows:

Refresher Courses:	2018	2017	Change
Beef	75	86	Decrease
Small Stock	104	158	Decrease
Pork	35	38	Decrease
Total attendees of refresher courses	214	282	Decrease

For details of the refresher course attendees for the current year refer to the **2018 Meat Classification Refresher Courses** section.

National Carcass Competition

The National Carcass Competition has grown in stature over the years - from a small beginning in 1984 when there were only four beef carcass competitions to the following for the current year:

NUMBER OF COMPETITIONS 2017/ 2018		
Number of competitions	Commercial farmers	Emergent farmers
Beef	27	4
Sheep	24	4
Goat	2	1
Pork	1	3
Total	54	12

It is estimated that 516 commercial and 66 emergent producers are currently taking part in this competition on a countrywide basis.

The importance and value of this competition have for some time been underestimated by the red meat industry. The continuous emphasis on meat quality worldwide ties in with the aims of the competition, i.e. to produce carcasses according to market specifications and consumer requirements.

During the July 2017 to June 2018 cycle, 41 sponsorships were received. Total price-money were **R 603 120,00** from our sponsors namely:

Sponsors		
African Skins	Agency for Food Safety	André Kock & Seun
Axxon (Pty)Ltd	Beefmaster	Bonsmara
Brahman	Cape Gate	Carnarvon Abattoir
Cavalier Foods	Chamdor Meat Packers	CPS International
Dorper	FNB	GWK Groblershoop
Hinterland	Ile de France	Jarvis
KLK Landbou Beperk	Landbank	Lubern Voere
Molatek	Molopo Boerevereniging	Obaro
Old Mutual	OVK Gariep Abattoir	PIC
Pick `n Pay	RMLA	RPO
SAVPO	Sernick	Shoprite Checkers
Spar	Stella Vleis	Topigs
Troskie Vennote	Veekos	Voermol
Vryburg Abattoir	Woolworths	

The quality of the entrants received in the current cycle has been from the best since the start of the competition 35 years ago. The quality of the entries is currently on a very high level for the National Competitions for beef, lamb, pork and goat carcasses. However, there are still opportunities for increasing the participation by emergent farmers.

There has been an overall increase in the number of entries received in the current year:

NUMBER OF ENTRIES			
Commercial farmers			
Number of entries	2016/2017	2017/2018	Change
Beef	2 009	2 331	Increase
Sheep	1 933	2 004	Increase
Goat	80	78	Decrease
Pork	187	80	Decrease
Total	4 209	4 493	Increase
Emergent farmers			
Number of entries	2016/2017	2017/2018	Change
Beef	227	278	Increase
Sheep	180	159	Decrease
Goat	0	7	Increase
Pork	210	104	Decrease
Total	617	548	Decrease
Overall	4 826	5 041	Increase

During this cycle, highest points were awarded to a Bonsmara carcass in the beef carcass competition, to a Dorper carcass in the lamb carcass competition, to a Boerbok carcass in the goat carcass competition and to PIC in the pork carcass competition.

For details of the national carcass competitions for the current year refer to the **2018 National Carcass Competitions** section.

Cleaver Awards

An initiative of the South African Red Meat Industry Forum, these awards acknowledge butcheries, which meet consumer expectations on in-store hygiene, the supply of quality assured roller marked South African Beef, their level of competency in offering the best advice on meat preparations and perceived value for money. The Cleaver Awards were introduced in 2005 to meet the needs of the consumer by raising the standards among butcheries. Since these awards started 12 years ago, butchery standards have improved and feedback from customers show that the majority perceive the Cleaver Awards to be a seal of approval. SAMIC conducts the audits for the Cleaver awards.

The number of audits performed for this purpose increased from the prior year:

Cleaver Award Audits:	2018	2017	Change
Audits done for cleaver awards:	92	88	Increase

For details of the cleaver award audits performed in the current year refer to the **2018 Cleaver Award Audits** section.

Meat Samples

Meat samples are collected nationally from butcheries and retailers. These samples are analysed for DNA at the South African National Biodiversity Institute (SANBI) at the National Zoological Gardens (NZG) and ingredient testing is done at IDEXX. Both these laboratories are accredited facilities. Appropriate action is taken on the basis of results.

Meat Sample Audits:	2018	2017	Change
Audits done for meat samples:	216	268	Decrease

For details of the meat samples tested in the current year refer to the **2018 Meat Samples** section

Visits at Abattoirs Not Classifying

The visits by our regional inspectors/ auditors to non-classifying abattoirs are shown in the table below. The aim of the visits is to ensure that all abattoirs in the country are registered for paying levies to the Red Meat Levy Administrator. The same rules apply for all meat outlets in the country.

Visits at abattoirs	Number of visits								Total
	JJ	JM	AR	SO	PN	DZ	EG	ADT	
Actual total abattoirs visits for the year	54	13	10	16	48	13	14	20	188
Total non-classification abattoirs	54	12	10	16	48	13	14	20	187
Total % abattoirs visits done for the year	100%	108%	100%	100%	100%	100%	100%	100%	101%

ClassiQuip

ClassiQuip, a division of SAMIC, is the sole agent to distribute all classification equipment in the red meat industry. Stamps, for example age identification, fatness, conformation, damage and M/D classes as specified in the regulations, as well as roller-marking equipment and edible ink with specifications for each purpose for the marking of carcasses, are supplied.

Trade

Trade visits

The total visits made to the meat trade and the deviations from regulations found by SAMIC regional managers:

	2018	2017	Change	Change %
Total visits	2 593	2 913	Decrease	-11%
Total deviations	121	180	Decrease	-33%
Deviation percentage	4.7%	6.2%	Decrease	-24%

These visits were spread over the country as follows:

Deviations from Regulations- Trade

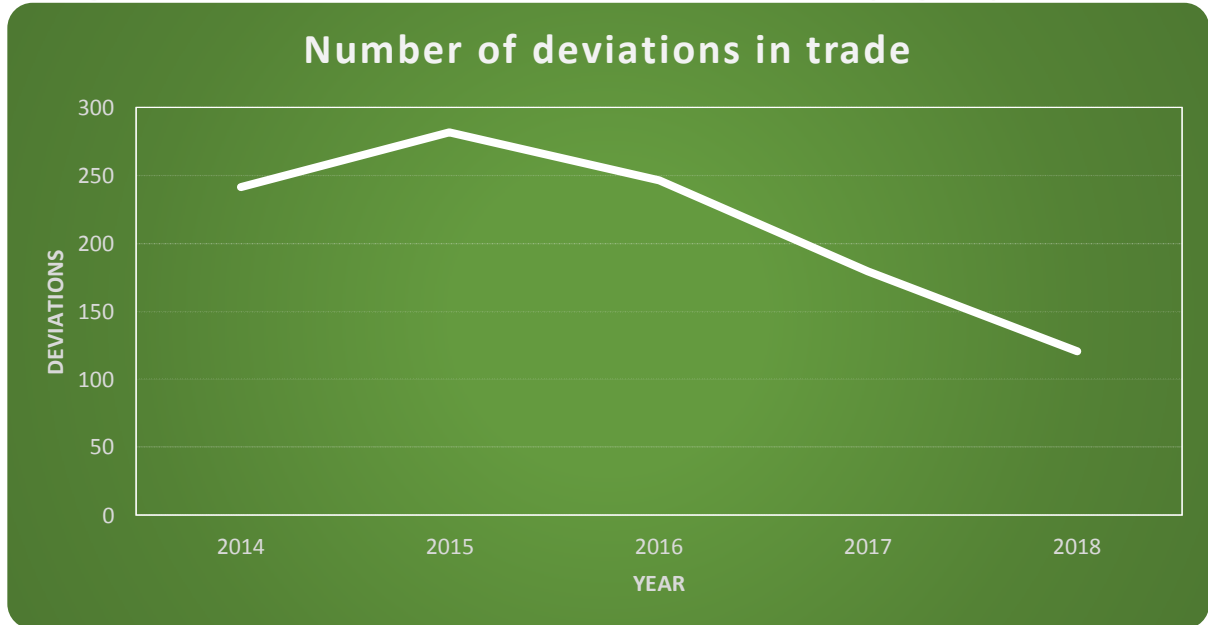

The major problems were restricted particulars ('choice' / 'keur'), no stamp of approval of some registered abattoirs, unclassified sheep sold as lamb and other means.

There is an indication that the meat trade is becoming more aware of the importance of correctly labelling imported meat products, to distinguish imported meat from local meat for the consumer at the point of sale.

The trend of Deviations at the Trade is decreasing in this year as reflected by the graph and the table, especially with smudged roller marks, imported meat not marked and indicated deviations used in relation to advertisements, noticeboards and other means. Trade owners also received in some instances warnings from SAMIC regarding Deviations applicable to the Agricultural Product Standards Act, Act No 119 of 1990.

When the deviations are found regarding the classification characteristics of carcasses / meat at trade outlets, e.g. deviations of fatness classification, untidy and smudged roller-marks, they are immediately reported telephonically to the Regional Inspector/auditor in whose region the abattoir/s of origin is/are situated. He/she can then institute rectifying steps.

Quality Indication Marks

Quality indication marks, as a marketing tool, is becoming more important in the red meat industry and some suppliers have already successfully developed niche markets for their quality indicated products. Traceability forms an integral part of quality indication marks and it is therefore important that the traceability system of a quality indication mark be firmly established and verified by an independent authority.

The current year has seen a decrease in the number of audits done for quality indication marks together with a decrease in the number of quality indication marks being audited.

Quality Indication Marks:	2018	2017	Change
Number of audits done	2 276	2 437	Decrease
Number of quality indication marks	35	51	Decrease
Number of deviations	96	68	Increase
Percentage deviations	4.2%	2.8%	Increase

The following table indicates the number of audits performed per quality mark by the various inspectors/ auditors. Instances of non-compliance is indicated in the "NCY" column.

Financial Results

The financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008. The accounting policies have been applied consistently compared to the prior year.

In the face of the adverse climatic conditions experienced in the current year in agriculture and the red meat industry, SAMIC experienced a stable and successful business year.

SAMIC experienced a slight increase in revenue in the current year when compared to that of the prior year. The investments held however experienced unfavourable growth in the current year, resulting in a lower comprehensive income when compared to that of the prior year. Due to the continued positive annual results SAMIC's retained equity continued to show positive growth. The cash flow from operations of the company also improved in comparison to that of the prior year, allowing for additional funds to be allocated to long term investments.

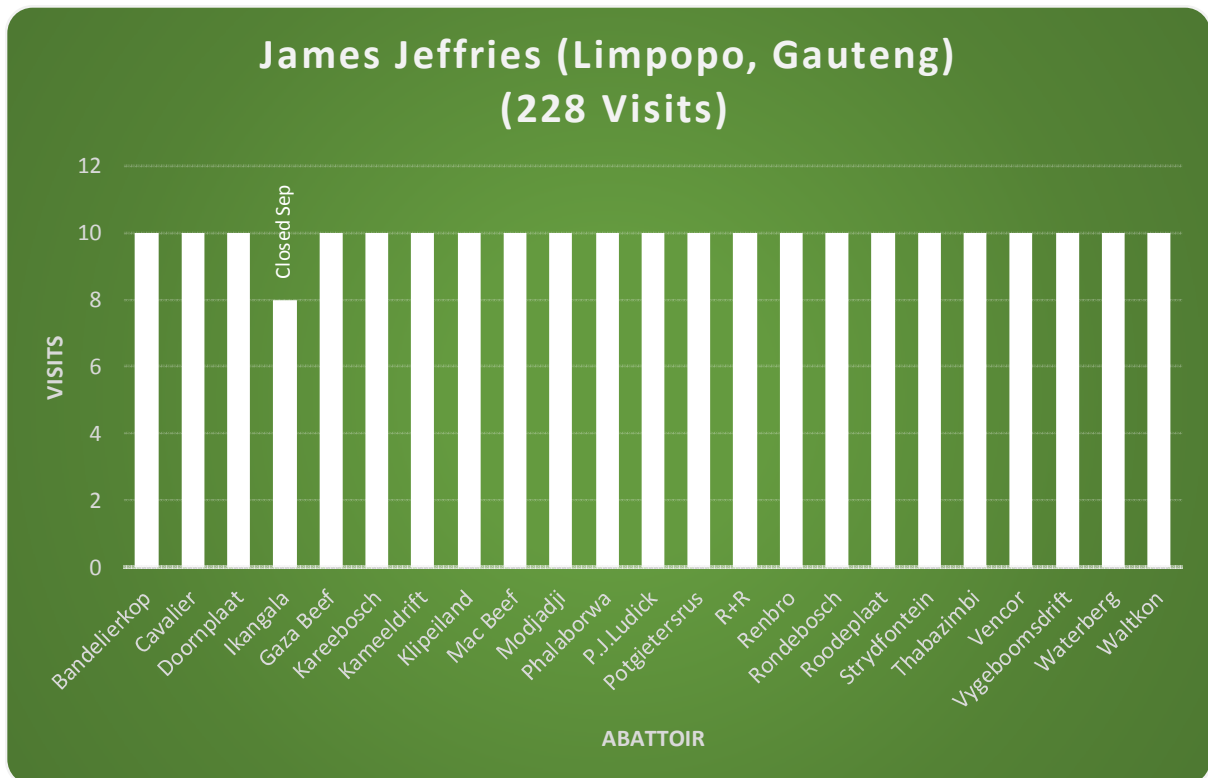

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient funds to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

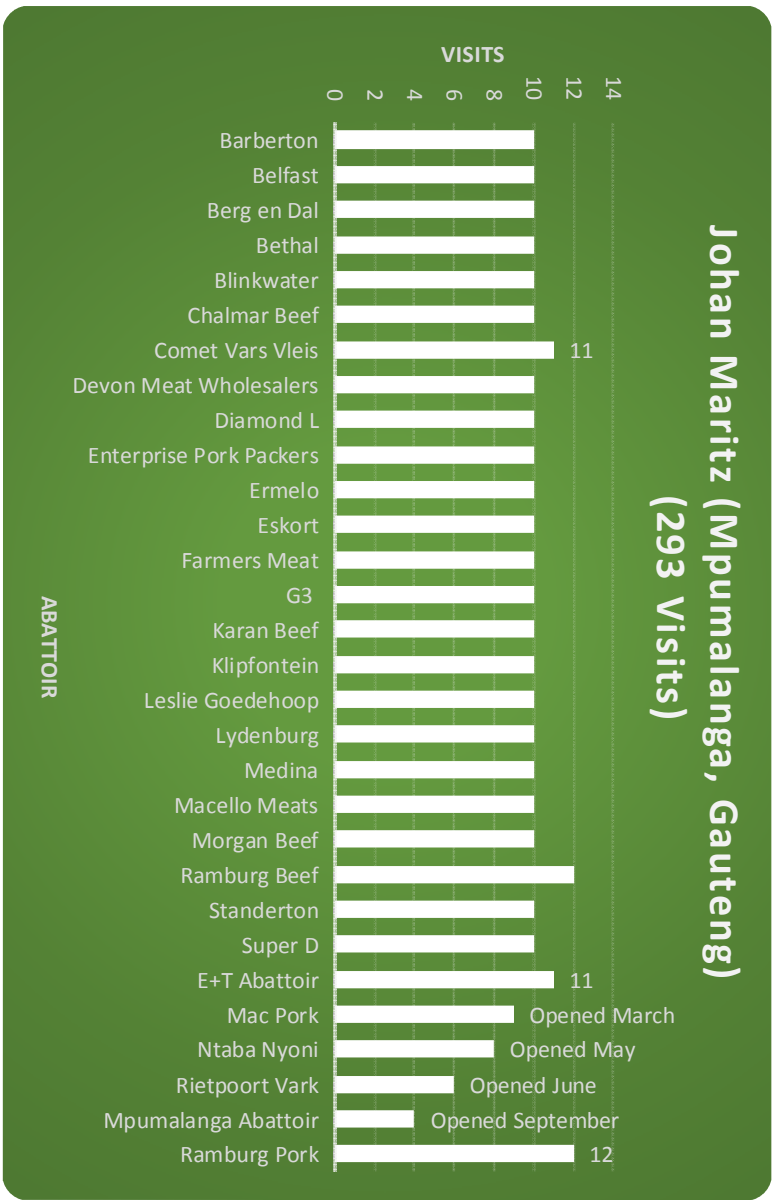

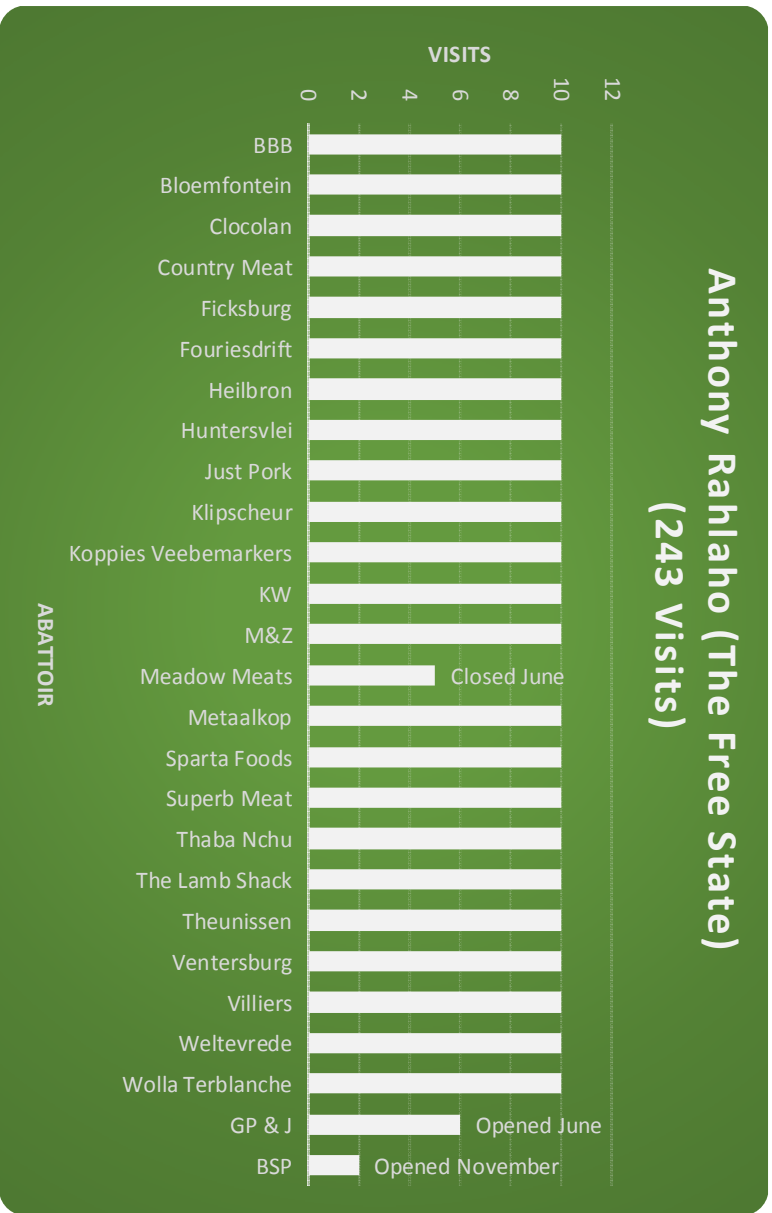

JTC Chartered Accountants (S.A) Incorporated continued in office as auditors for the company for 2018 and issued an unqualified audit report.

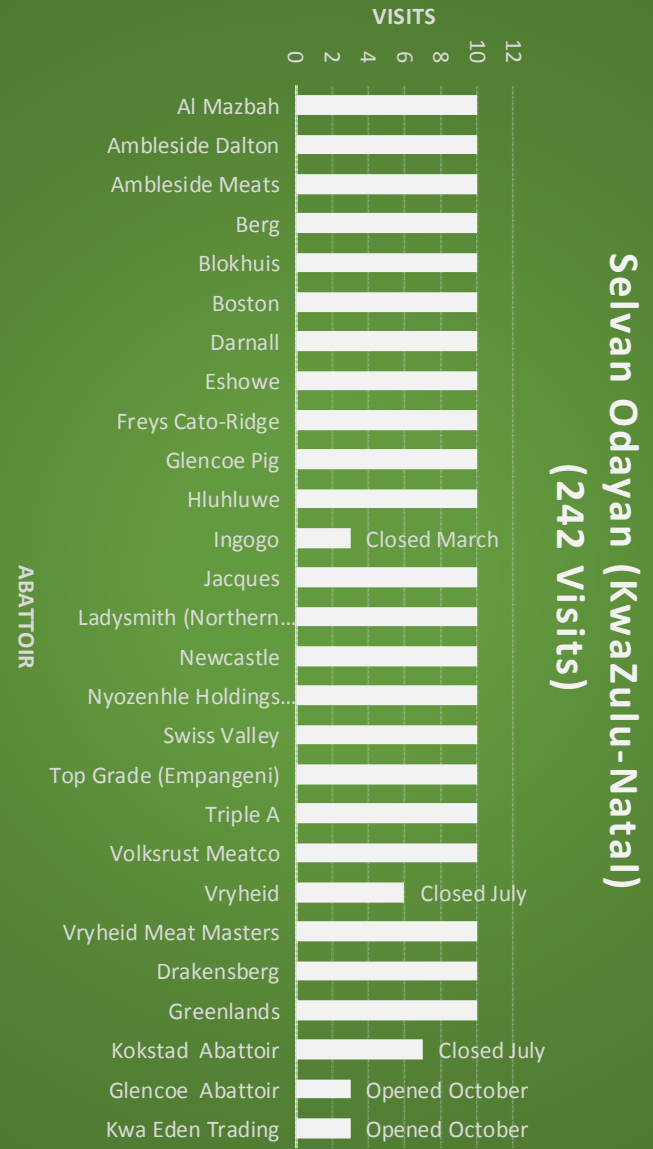

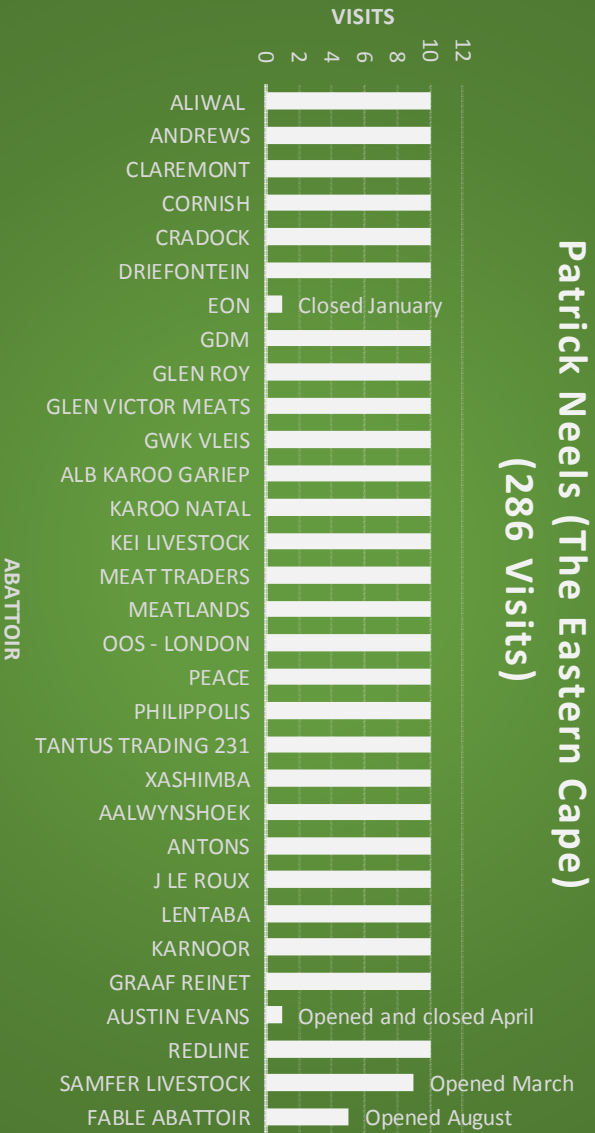

For the abbreviated financial statements refer to the **2018 Abbreviated Financial Statements** section. The complete audited financial statements are available at the offices of the South African Meat Industry Company NPC.
