Foreword

By Adv. Les Kügel
Chairman of SAMIC

SAMIC is collectively owned by the red meat industry of South Africa and as assignee of the National Department of Agriculture, Land Reform and Rural Development (in terms of the Agricultural Product Standards Act) it is inter alia responsible to independently verify the standards of meat classification and quality indication marks at the vast majority of abattoirs and trade outlets in South Africa.

As such it plays a significant role to sustain customer confidence in the products it buys to the ultimate benefit of consumers, the red meat industry and the country as a whole.

The Executive Director`s Annual Report provides a complete overview of SAMIC`s operational activities but it is evident that the company through the efforts of its loyal and competent employees continued to meet and exceed the expectations of its stakeholders and customers in attending to classification inspections and audits, trade visits, quality indication mark audits, assessing of students and import verifications during trade inspections.

At board level, the loyal and active participation of my board colleagues and the seriousness with which they view their fiduciary responsibilities continue to contribute to the maintenance of appropriate oversight of SAMIC`s activities. Owing to the small number of directors, board members directly oversee the integrity of audit, risk, remuneration, internal financial control and related matters. I thank them for their unselfish and dedicated contributions.

SAMIC continues to value the loyal support of the industry in maintaining a world-class certification authority of which the red meat industry can be justifiably proud. Without the support of the industry SAMIC would not exist, but the counter side of the coin I believe is also true- without SAMIC the industry and indeed the country would be much poorer.

Accrediting bodies

SANAS

SANAS is an acronym for the South African National Accreditation System. **SANAS** is recognised by the South African Government in Act 19 of 2006 as the single National Accreditation Body that gives formal recognition that amongst others, Inspection Bodies are competent to carry out specific tasks. Following the **SANAS** Approval Committee meeting on 31 August 2018, unconditional accreditation has been granted in accordance with ISO/IEC 17020:2012 to **SAMIC** (INSP0036) to supply the service of an inspection body as an assignee by the Department of Agriculture, Forestry and Fisheries (DAFF) in terms of Regulations No. 55 of 2015, Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) as amended.

SAATCA

SAATCA is an acronym for the South African Auditor & Training Certification Authority . **SAATCA's** mission is to recognize and address amongst others the need within the Southern African industry for competent and credible Product and process Auditors who can deliver both professional and value-adding auditing services to support, enhance and positively impact strategic, operational and organization-wide performance objectives in pursuit of optimal business excellence, thus "**Raising business confidence**". **SAMIC** is a member of SAATCA and all our auditors are registered with **SAATCA**.

SAACB

SAACB is an acronym for the Southern African Association of Certification Bodies. With the mission of promoting accredited certification and adhering to the Code of Conduct, **SAACB** members are contributing to the overall success of the certification industry in South Africa. All members have management systems conforming to ISO 17021:2011 in place to address consistency. All members have systems based on IAF and Accreditation Body endorsed practices. **SAMIC** is an associate member of the **SAACB**.

Classification Coordination

The Department of Agriculture, Land Reform and Rural Development assigned SAMIC the responsibility of ensuring that appropriate meat classification standards are applied in a uniform manner at those abattoirs that register voluntarily for the classification of their carcasses. This is according to the "Regulations regarding control over the sale of products in the Republic of South Africa" in the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990), and its regulations.

During 2019 various activities took place with regard to Standards Control, Assessing of Meat Classifiers, Carcass Competitions, Quality Assurance (Branding), Inspections at Classifying and Non Classifying Abattoirs for RMLA purposes and Auditing of Hides and Skins for Export purposes.

Corporate Governance

Preface

SAMIC supports the Code of Corporate Practices and Conduct as a manner of conducting the affairs of the Company with integrity and in accordance with the standards of corporate practice.

Board of directors

The directors endorsed and, during the period under review, applied the Code of Corporate Practices and Conduct as set out in the King Report. By supporting the Code the directors have recognized the need to conduct the enterprise with integrity and in accordance with generally accepted corporate practices.

Financial statements

The annual financial statements are the responsibility of the Company's directors and fairly represent the state of affairs and the results of the Company. The external auditors are responsible for independently reviewing and reporting on these financial statements.

Internal control

The directors are responsible for instituting an effective system of internal control. In order to fulfil its responsibilities, management maintained adequate accounting records and developed and continued to maintain systems of internal records.

Management reporting

Management reporting disciplines are in place, which include the preparation of the annual budget. Monthly results and the financial statements are reported against approved budgets and compared to the previous year.

Rudi van der Westhuizen
Executive Director

Abattoirs

Abattoir Visits

The number of abattoirs that are registered as participants in the meat classification system decreased from the previous year:

	2019	2018	Change	Change %
Registered abattoirs	2 00	206	Decrease	-3%

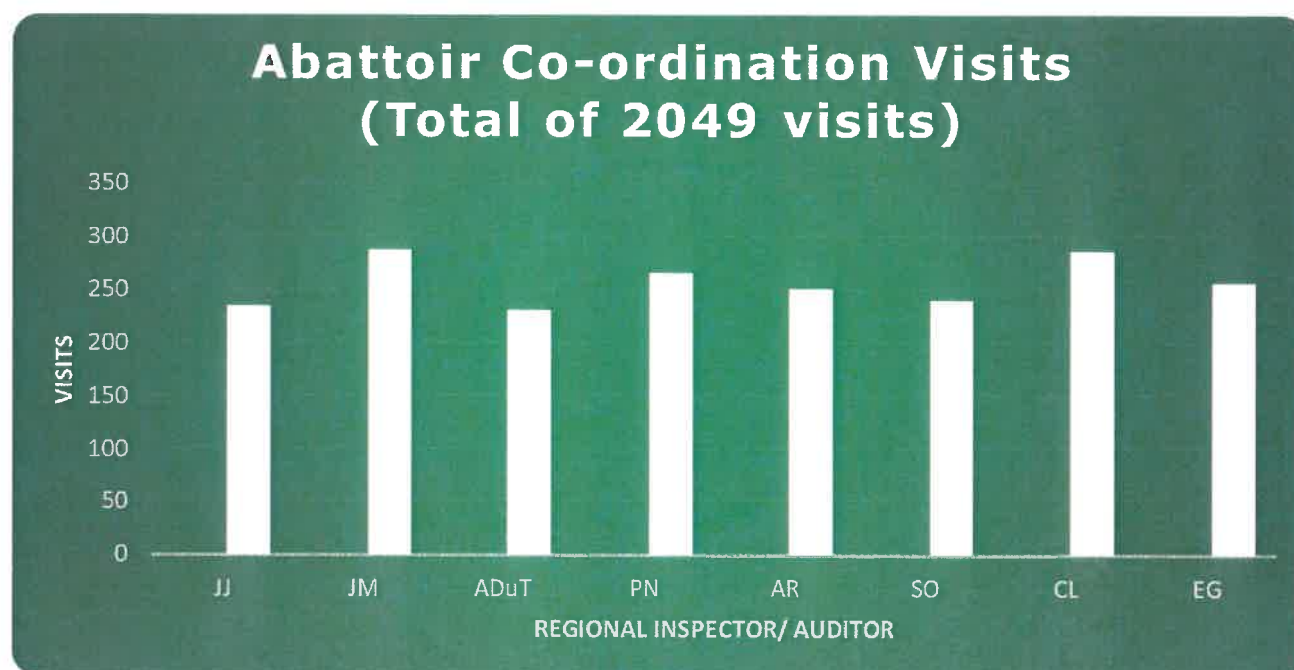

The classifying of species of the above abattoirs are:

Specie	2019	2018	Change	Change %
Beef	154	162	Decrease	-5%
Small stock	161	164	Decrease	-2%
Pork	89	85	Increase	5%

All registered abattoirs were subjected to at least ten unscheduled audits per year in order to ensure that classification standards are applied consistently and on a continuous basis. The total visits and deviations found from the regulations:

	2019	2018	Change	Change %
Total visits	2 049	2 084	Decrease	-2%
Total deviations	258	218	Increase	18%
Deviation percentage	13%	10%	Increase	20%

The visits were spread over the country as follows:

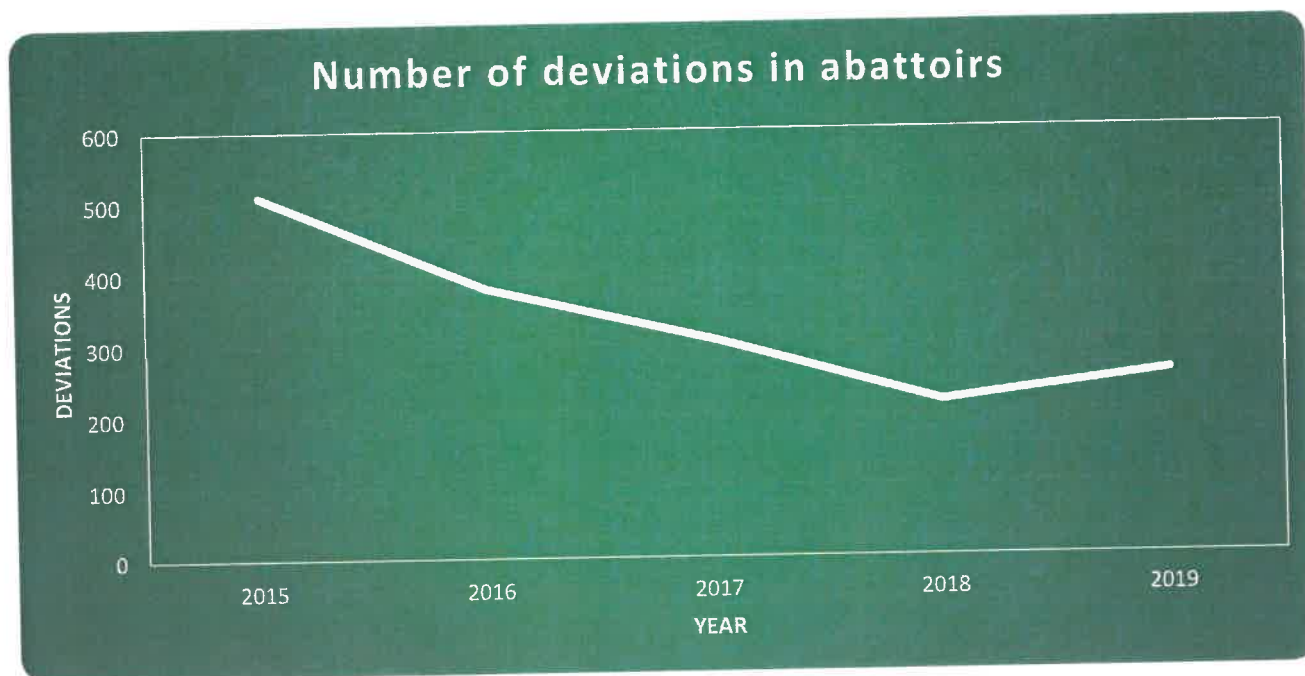

For detail of the number of visits performed by regional inspector/ auditor at each abattoir refer to the 2019 Abattoir Co-ordination Visit section.

28	Other	5	1	0	0	0
Total		509	379	305	218	258

The most prominent problem area was with the number of deviations of fatness and the measurement position for pork classification is incorrect. For detail of the deviations of fatness per abattoir refer to section **2019 Average % Deviations of Fat Codification Standards**.

The trend of deviations at abattoirs is increasing in this year as reflected by the graph and the table, especially with deviation of fatness classification and no age identification of the head or carcass.

The number of deviations noted is directly the result of the lack of experience of meat classifiers at the particular abattoirs, where a turnover of 25% – 30% of meat classifiers in South Africa is experienced for the past year. New meat classifiers are assessed by SAMIC as discussed in the **Assessing of Meat Classifiers section**.

In order to rectify these deviations noted, classifiers have to undergo refreshing training where deviations of more than 6% occurred at abattoirs. Refer to the **Refresher courses** section for further details.

Service Fee for Co-ordination

In 2019 there was an increase of 3.5% on the co-ordination fees according to a decision of the SAMIC Board of Directors. At the end of 2019 there were no fees outstanding.

Assessing of Meat Classifiers

SAMIC is responsible for the assessing of meat classifiers. During 2019 classifiers as indicated in the table below qualified to classify either one, two or all three species.

Assessing of Meat Classifiers:	2019	2018	Change
Beef	22	23	Decrease
Small Stock	24	27	Decrease
Pork	22	25	Decrease
Total classifiers assessed	68	75	Decrease

For detail of the persons assessed as meat classifiers in the current year refer to the **2019 Assessing of Meat Classifiers** section.

Refresher courses

SAMIC conducted standard refresher courses for beef, small stock and pork carcasses with attendance by meat classifiers as follows:

Refresher Courses:	2019	2018	Change
Beef	80	75	Increase
Small Stock	123	104	Increase
Pork	36	35	Increase
Total attendees of refresher courses	239	214	Increase

For details of the refresher course attendees for the current year refer to the **2019 Meat Classification Refresher Courses** section.

National Carcass Competition

The National Carcass Competition has grown in stature over the years - from a small beginning in 1984 when there were only four beef carcass competitions to the following for the current year:

NUMBER OF COMPETITIONS 2018/ 2019		
Number of competitions	Commercial farmers	Emergent farmers
Beef	19	6
Sheep	26	3
Goat	1	1
Pork	2	2
Total	48	12

It is estimated that 608 commercial and 74 emergent producers are currently taking part in this competition on a countrywide basis.

The importance and value of this competition have for some time been underestimated by the red meat industry. The continuous emphasis on meat quality worldwide ties in with the aims of the competition, i.e. to produce carcasses according to market specifications and consumer requirements.

During the July 2018 to June 2019 cycle, 40 sponsorships were received.

Total price-money were **R 625 750,00** from our sponsors namely:

SPONSORSHIPS	
André Kock & Seun	Landbank
Animate Health	Lubern Voere
Axxon (Pty)Ltd	Meat Matrix
Beefmaster Teelgenootskap	Molatek
Bonsmara	Molopo Boerevereniging
Boshof Abattoir	Old Mutual
Cape Gate	PIC
Carnarvon Abattoir	RMLA
Cavalier Foods	RPO Nasionaal
Chamdor Meat Packers (Pty)Ltd	SA Feedlot Association
Checkers	SAVPO
CPS International	Sernick
Dorper	Spar
Excelsior Abattoir	Stella Vleis
FNB	Topigs Norsvin
Food Safety & Quality (Pty)Ltd	Troskie Vennote
GWK Groblershoop	Veekos
Hinterland	Voermol
Jarvis	Vryburg Abattoir
KLK	Woolworths

The quality of the entrants received in the current cycle has been from the best since the start of the competition 34 years ago. The following summary of results is indicative of this fact. The quality of the entries is currently on a very high level for the National Competitions for beef, lamb and goat carcasses. However, there are still opportunities for increasing the participation by emergent farmers.

There has been an overall decrease in the number of entries received in the current year:

NUMBER OF ENTRIES			
Commercial farmers			
Number of entries	2017/2018	2018/2019	Change
Beef	2 331	1 568	Decrease
Sheep	2 004	2 143	Increase
Goat	78	65	Decrease
Pork	80	224	Increase
Total	4 493	4 000	Decrease

NUMBER OF ENTRIES			
Emergent farmers			
Number of entries	2017/2018	2018/2019	Change
Beef	278	300	Increase
Sheep	159	80	Decrease
Goat	7	13	Increase
Pork	104	107	Increase
Total	548	500	Decrease
Overall	5 041	4 500	Decrease

During this cycle, highest points were awarded to a Beefmaster carcass in the beef carcass competition, to a Dorper carcass in the lamb carcass competition, to a Boerbok carcass in the goat carcass competition and to Topigs in the pork carcass competition.

For details of the national carcass competitions for the current year refer to the **2018 National Carcass Competitions** section.

Cleaver Awards

An initiative of the South African Red Meat Industry Forum, these awards acknowledge butcheries, which meet consumer expectations on in-store hygiene, the supply of quality assured roller marked South African Beef, their level of competency in offering the best advice on meat preparations and perceived value for money. The Cleaver Awards were introduced in 2005 to meet the needs of the consumer by raising the standards among butcheries. Since these awards started 13 years ago, butchery standards have improved and feedback from customers show that the majority perceive the Cleaver Awards to be a seal of approval. SAMIC conducts the audits for the Cleaver awards.

The number of audits performed for this purpose decreased from the prior year:

Cleaver Award Audits:	2019	2018	Change
Audits done for cleaver awards:	45	92	Decrease

For details of the cleaver award audits performed in the current year refer to the **2019 Cleaver Award Audits** section.

Meat Samples

Meat samples are collected nationally from butcheries and retailers. These samples are analysed for DNA at the South African National Biodiversity Institute (SANBI) at the National Zoological Gardens (NZG) and ingredient testing is done at IDEXX. Both these laboratories are accredited facilities. Appropriate action is taken on the basis of results.

Meat Sample Audits:	2019	2018	Change
Audits done for meat samples:	231	216	Increase

For details of the meat samples tested in the current year refer to the **2019 Meat Samples** section

Visits at Abattoirs Not Classifying

The visits by our regional co-ordinators to non-classifying abattoirs are shown in the table below. The aim of the visits is to ensure that all abattoirs in the country are registered for paying levies to the Red Meat Levy Administrator. The same rules apply for all meat outlets in the country.

Visits at abattoirs	Number of visits								Total
	JJ	JM	ADuT	PN	AR	SO	CL	EG	
Actual total abattoirs visits for the year	58	11	19	14	9	15	49	15	190

ClassiQuip

ClassiQuip, a division of SAMIC, is the sole agent to distribute all classification equipment in the red meat industry. Stamps, for example age identification, fatness, conformation, damage and M/D classes as specified in the regulations, as well as roller-marking equipment and edible ink with specifications for each purpose for the marking of carcasses, are supplied.

Trade

Trade visits

The total visits made to the meat trade and the deviations from regulations found by SAMIC regional managers:

	2019	2018	Change	Change %
Total visits	2 661	2 593	Increase	3%
Total deviations	110	121	Decrease	-9%
Deviation percentage	4%	4.7%	Decrease	-11%

These visits were spread over the country as follows:

Deviations from Regulations- Trade

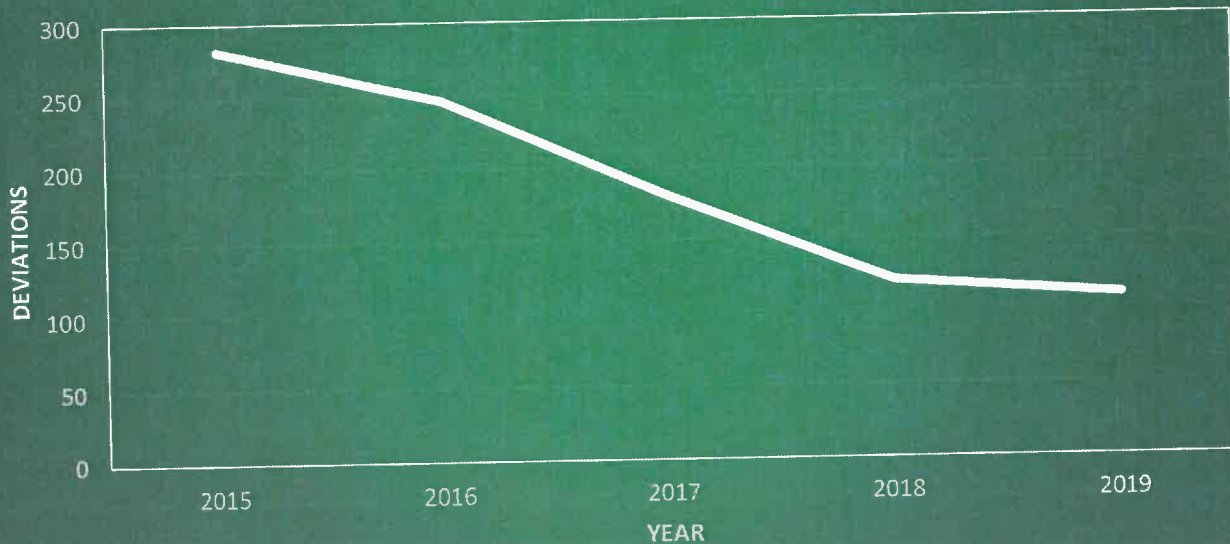

The major problems were restricted particulars ('choice' / 'keur') and no stamp of approval of some registered abattoirs.

There is still an indication that the meat trade is not aware of the importance of correctly labelling imported meat products, to distinguish imported meat from local meat for the consumer at the point of sale.

The trend of Deviations at the Trade is decreasing in this year as reflected by the graph and the table, especially with restricted particulars and unclassified sheep sold as lamb. Trade owners also received in some instances warnings from the National Department of Agriculture, Forestry and Fisheries regarding Deviations applicable to the Agricultural Product Standards Act, Act Nr 119 of 1990.

Number of deviations in trade

When the deviations are found regarding the classification characteristics of carcasses / meat at trade outlets, eg deviations of fatness classification, untidy and smudged roller-marks, they are immediately reported telephonically to the Regional Co-ordinator in whose region the abattoir/s of origin is/are situated. He/she can then institute rectifying steps.

Quality Indication Marks

Quality indication marks, as a marketing tool, is becoming more important in the red meat industry and some suppliers have already successfully developed niche markets for their quality indicated products. Traceability forms an integral part of quality indication marks and it is therefore important that the traceability system of a quality indication mark be firmly established and verified by an independent authority.

The current year has seen an increase in the number of audits done for quality indication marks together with an increase in the number of quality indication marks being audited.

Quality Indication Marks:	2019	2018	Change
Number of audits done	2 792	2 276	Increase
Number of quality indication marks	41	35	Increase
Number of deviations	68	96	Decrease
Percentage deviations	2.4%	4.2%	Decrease

The following table indicates the number of audits performed per quality mark by the various inspector/ auditors. Instances of non-compliance is indicated in the "NCY" column.

Financial Results

The financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008. The accounting policies have been applied consistently compared to the prior year.

In the face of the adverse climatic conditions experienced in the current year in agriculture and the red meat industry, SAMIC experienced a stable and successful business year.

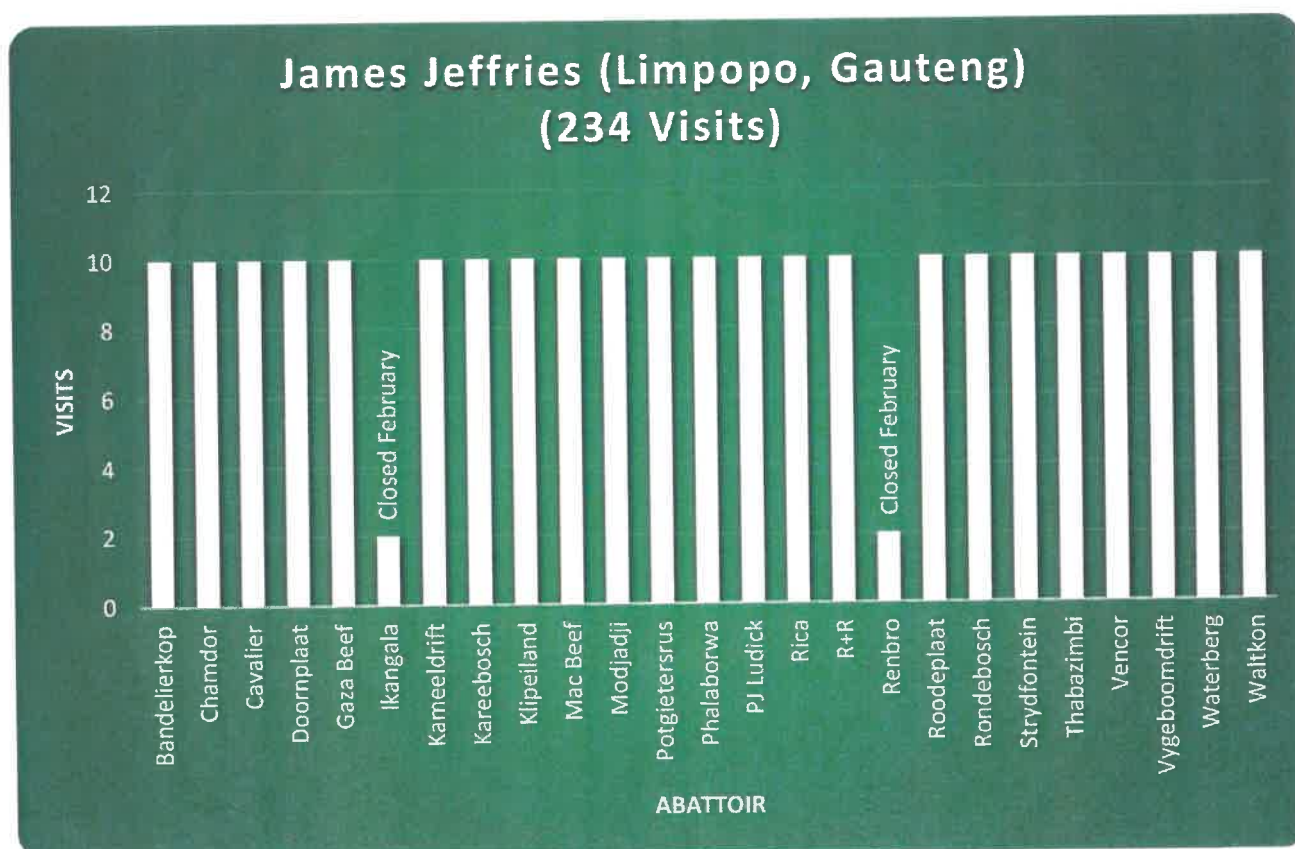

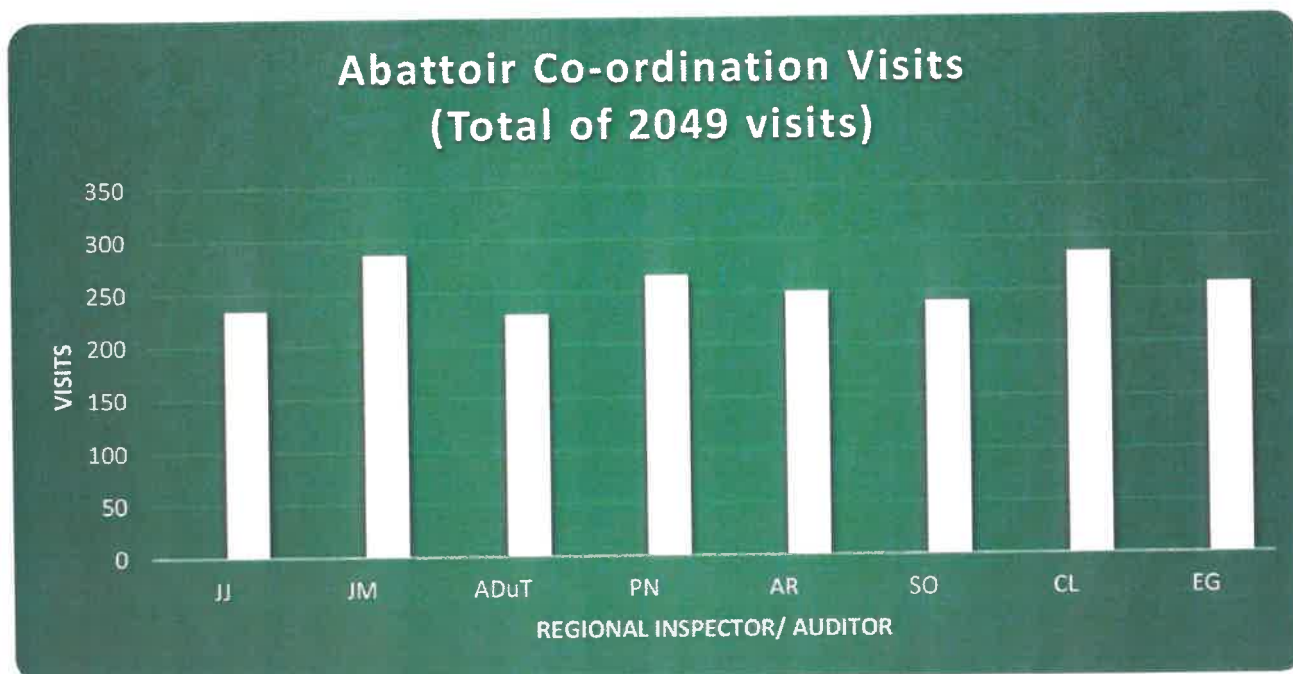

SAMIC experienced an increase in revenue in the current year when compared to that of the prior year which resulted in an increased comprehensive income. The investments held experienced favourable growth in the current year. Due to the continued positive annual results SAMIC's retained equity continued to show positive growth. The cash flow of the company also improved in comparison to that of the prior year.

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient funds to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

JTC Chartered Accountants (S.A) Incorporated continued in office as auditors for the company for 2019 and issued an unqualified audit report. For the abbreviated financial statements refer to the 2019 Abbreviated Financial Statements section. The complete audited financial statements are available at the offices of the South African Meat Industry Company NPC.
