Foreword

By Adv. Les Kügel
Chairman of SAMIC

SAMIC is collectively owned by the red meat industry of South Africa and as assignee of the National Department of Agriculture, Land Reform and Rural Development (in terms of the Agricultural Product Standards Act) it is inter alia responsible to independently verify the standards of meat classification and quality indication marks at the vast majority of abattoirs and trade outlets in South Africa.

As such it plays a significant role to sustain customer confidence in the products it buys to the ultimate benefit of consumers, the red meat industry and the country as a whole.

The past financial year posed significant challenges with the ongoing impact of the COVID-19 epidemic, but the company nevertheless continued to meet and exceed its objectives and the expectations of its stakeholders and customers in these trying times. For this I wish to give a special word of thanks to our loyal and hardworking staff who not only kept the ship afloat but exceeded all expectations in attending to classification inspections and audits, quality indication mark audits and import verifications during trade inspections.

At board level, the loyal and active participation of my board colleagues continue to contribute to the maintenance of appropriate oversight of SAMIC's activities. In view of the small number of directors, board members directly oversee the integrity of audit, risk, remuneration, internal financial control and related matters. I thank them for their unselfish and dedicated contributions.

Accrediting bodies

SANAS

SANAS is an acronym for the South African National Accreditation System. **SANAS** is recognised by the South African Government in Act 19 of 2006 as the single National Accreditation Body that gives formal recognition that amongst others, Inspection Bodies are competent to carry out specific tasks. Following the **SANAS** Approval Committee meeting on 31 August 2019, unconditional accreditation has been granted in accordance with ISO/IEC 17020:2012 to **SAMIC** (INSP0036) to supply the service of an inspection body as an assignee by the Department of Agriculture, Forestry and Fisheries (DAFF) in terms of Regulations No. 55 of 2015, Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) as amended.

SAATCA

SAATCA is an acronym for the South African Auditor & Training Certification Authority. **SAATCA's** mission is to recognize and address amongst others the need within the Southern African industry for competent and credible Product and process Auditors who can deliver both professional and value-adding auditing services to support, enhance and positively impact strategic, operational and organization-wide performance objectives in pursuit of optimal business excellence, thus "**Raising business confidence**". **SAMIC** is a member of **SAATCA** and all our auditors are registered with **SAATCA**.

SAACB

SAACB is an acronym for the Southern African Association of Certification Bodies. With the mission of promoting accredited certification and adhering to the Code of Conduct, **SAACB** members are contributing to the overall success of the certification industry in South Africa. All members have management systems conforming to ISO 17021:2011 in place to address consistency. All members have systems based on IAF and Accreditation Body endorsed practices. **SAMIC** is an associate member of the **SAACB**.

Classification Coordination

The Department of Agriculture, Land Reform and Rural Development assigned SAMIC the responsibility of ensuring that appropriate meat classification standards are applied in a uniform manner at those abattoirs that register voluntarily for the classification of their carcasses. This is according to the "Regulations regarding control over the sale of products in the Republic of South Africa" in the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990), and its regulations.

During 2020 various activities took place with regard to Standards Control, Assessing of Meat Classifiers, Carcass Competitions, Quality Assurance (Branding), Inspections at Classifying and Non Classifying Abattoirs for RMLA purposes and Auditing of Hides and Skins for Export purposes.

Corporate Governance

Preface

SAMIC supports the Code of Corporate Practices and Conduct as a manner of conducting the affairs of the Company with integrity and in accordance with the standards of corporate practice.

Board of directors

The directors endorsed and, during the period under review, applied the Code of Corporate Practices and Conduct as set out in the King Report. By supporting the Code the directors have recognized the need to conduct the enterprise with integrity and in accordance with generally accepted corporate practices.

Financial statements

The annual financial statements are the responsibility of the Company's directors and fairly represent the state of affairs and the results of the Company. The external auditors are responsible for independently reviewing and reporting on these financial statements.

Internal control

The directors are responsible for instituting an effective system of internal control. In order to fulfil its responsibilities, management maintained adequate accounting records and developed and continued to maintain systems of internal records.

Management reporting

Management reporting disciplines are in place, which include the preparation of the annual budget. Monthly results and the financial statements are reported against approved budgets and compared to the previous year.

Rudi van der Westhuizen
Executive Director

Abattoirs

Abattoir Visits

The number of abattoirs that are registered as participants in the meat classification system increased from the previous year:

	2020	2019	Change	Change %
Registered abattoirs	201	200	Increase	1%

The classifying of species of the above abattoirs are:

Specie	2020	2019	Change	Change %
Beef	152	154	Decrease	-1%
Small stock	162	161	Increase	1%
Pork	90	89	Increase	1%

All registered abattoirs were subjected to at least ten unscheduled audits per year in order to ensure that classification standards are applied consistently and on a continuous basis. The total visits and deviations found from the regulations:

	2020	2019	Change	Change %
Total visits	2 024	2 049	Decrease	-1%
Total deviations	285	258	Increase	10%
Deviation percentage	14%	13%	Increase	12%

The visits were spread over the country as follows:

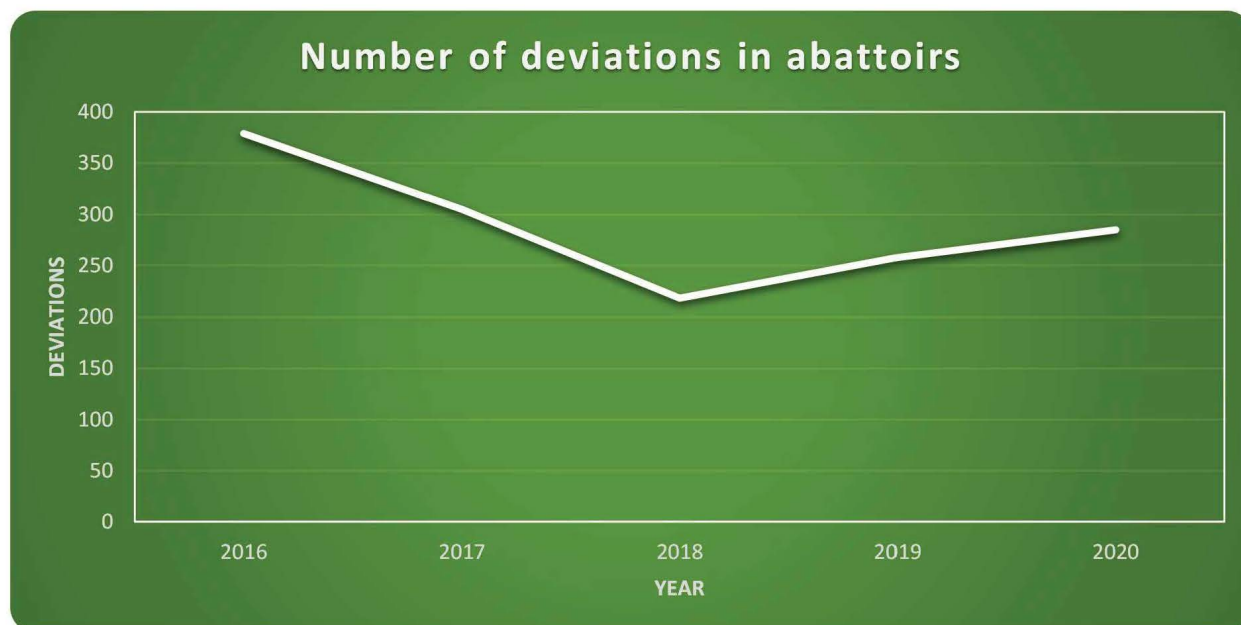

For detail of the number of visits performed by regional inspector/ auditor at each abattoir refer to the **2020 Abattoir Co-ordination Visit** section.

28	Other	1	0	0	0	0
Total		379	305	218	258	285

The most prominent problem area was with the number of deviation of fatness classification, conformation and damaging codes and the measurement position for pork classification is incorrect. For detail of the deviations of fatness per abattoir refer to section **2020 Average % Deviations of Fat Codification Standards**.

The trend of deviations at abattoirs is increasing in this year as reflected by the graph and the table, especially with deviation of fatness classification and measurement position for pork classification incorrect.

The number of deviations noted is directly the result of the lack of experience of meat classifiers at the particular abattoirs, where a turnover of 25% – 30% of meat classifiers in South Africa is experienced for the past year. New meat classifiers are assessed by SAMIC as discussed in the **Assessing of Meat Classifiers** section.

In order to rectify these deviations noted, classifiers have to undergo refreshing training where deviations of more than 6% occurred at abattoirs. Refer to the **Refresher courses** section for further details.

Service Fee for Co-ordination

In 2020 there was an increase of 3% on the co-ordination fees according to a decision made by the Red Meat Industry Forum on SAMIC's AGM. At the end of 2020 there were no fees outstanding.

Assessing of Meat Classifiers

SAMIC is responsible for the assessing of meat classifiers. During 2020 classifiers as indicated in the table below qualified to classify either one, two or all three species.

Assessing of Meat Classifiers:	2020	2019	Change
Beef	12	22	Decrease
Small Stock	12	24	Decrease
Pork	10	22	Decrease
Total classifiers assessed	34	68	Decrease

For detail of the persons assessed as meat classifiers in the current year refer to the **2020 Assessing of Meat Classifiers** section.

Refresher courses

SAMIC conducted standard refresher courses for beef, small stock and pork carcasses with attendance by meat classifiers as follows:

Refresher Courses:	2020	2019	Change
Beef	87	80	Increase
Small Stock	113	123	Decrease
Pork	45	36	Increase
Total attendees of refresher courses	245	239	Increase

For details of the refresher course attendees for the current year refer to the **2020 Meat Classification Refresher Courses** section.

National Carcass Competition

The National Carcass Competition has grown in stature over the years - from a small beginning in 1984 when there were only four beef carcass competitions to the following for the current year:

NUMBER OF COMPETITIONS 2020		
Number of competitions	Commercial farmers	Emergent farmers
Beef	10	3
Sheep	7	2
Goat	1	2
Pork	1	4
Total	19	11

It is estimated that 301 commercial and 60 emergent producers are currently taking part in this competition on a countrywide basis.

The importance and value of this competition have for some time been underestimated by the red meat industry. The continuous emphasis on meat quality worldwide ties in with the aims of the competition, i.e. to produce carcasses according to market specifications and consumer requirements.

During the July 2019 to June 2020 cycle, 38 sponsorships were received.

Total price-money were **R 505 820,00** from our sponsors namely:

SPONSORSHIPS	
African Skins	Luburn Voere
Agency for Food Safety	Meat Matrix
AgMarket	Molatek
Agri Gauteng	Nutrifeeds
André Kock & Seun	Obaro
Animate Health	Old Mutual
Beefmaster Teelgenootskap	PIC
Bonsmara	RMLA
Cape Gate	RPO
Cavalier Foods	SA Feedlot Association
Checkers	Santam
CPS International	SAVPO
DigiAgri	Sernick
Dorper	Spar
Excelsior Abattoir	Stella Vleis
Hennie Troskie & Vennote	Veekos
Ile de France	Voermol
Jarvis	Vryburg Abattoir
KLK	Woolworths

The quality of the entrants received in the current cycle has been from the best since the start of the competition 36 years ago. The following summary of results is indicative of this fact. The quality of the entries is currently on a very high level for the National Competitions for beef, lamb and goat carcasses. However, there are still opportunities for increasing the participation by emergent farmers.

There has been an overall decrease in the number of entries received in the current year:

NUMBER OF ENTRIES			
Commercial farmers			
Number of entries	2019	2020	Change
Beef	1 568	780	Decrease
Sheep	2 143	563	Decrease
Goat	65	26	Decrease
Pork	224	279	Increase
Total	4 000	1 648	Decrease

NUMBER OF ENTRIES			
Emergent farmers			
Number of entries	2019	2020	Change
Beef	300	124	Decrease
Sheep	80	131	Increase
Goat	13	21	Increase
Pork	107	209	Increase
Total	500	485	Decrease
Overall	4 500	2 133	Decrease

During this cycle, highest points were awarded to a Bonsmara carcass in the beef carcass competition, to a Dorper carcass in the lamb carcass competition, to a Boerbok carcass in the goat carcass competition and to Topigs in the pork carcass competition.

For details of the national carcass competitions for the current year refer to the **2020 National Carcass Competitions** section.

Cleaver Awards

An initiative of the South African Red Meat Industry Forum, these awards acknowledge butcheries, which meet consumer expectations on in-store hygiene, the supply of quality assured roller marked South African Beef, their level of competency in offering the best advice on meat preparations and perceived value for money. The Cleaver Awards were introduced in 2005 to meet the needs of the consumer by raising the standards among butcheries. Since these awards started 15 years ago, butchery standards have improved and feedback from customers show that the majority perceive the Cleaver Awards to be a seal of approval. SAMIC conducts the audits for the Cleaver awards.

The number of audits performed for this purpose decreased from the prior year:

Cleaver Award Audits:	2020	2019	Change
Audits done for cleaver awards:	87	45	Increase

For details of the cleaver award audits performed in the current year refer to the **2020 Cleaver Award Audits** section.

Meat Samples

Meat samples are collected nationally from butcheries and retailers. These samples are analysed for DNA at the South African National Biodiversity Institute (SANBI) at the National Zoological Gardens (NZG) and ingredient testing is done at IDEXX. Both these laboratories are accredited facilities. Appropriate action is taken on the basis of results.

Meat Sample Audits:	2020	2019	Change
Audits done for meat samples:	213	228	Decrease

For details of the meat samples tested in the current year refer to the **2020 Meat Samples** section

Visits at Abattoirs Not Classifying

The visits by our regional co-ordinators to non-classifying abattoirs are shown in the table below. The aim of the visits is to ensure that all abattoirs in the country are registered for paying levies to the Red Meat Levy Administrator. The same rules apply for all meat outlets in the country.

Visits at abattoirs	Number of visits								Total
	JJ	JM	ADuT	PN	AR	SO	HJ	EG	
Actual total abattoirs visits for the year	57	12	20	13	8	21	33	22	186

ClassiQuip

ClassiQuip, a division of SAMIC, is the sole agent to distribute all classification equipment in the red meat industry. Stamps, for example age identification, fatness, conformation, damage and M/D classes as specified in the regulations, as well as roller-marking equipment and edible ink with specifications for each purpose for the marking of carcasses, are supplied.

Trade

Trade visits

The total visits made to the meat trade and the deviations from regulations found by SAMIC regional managers:

	2020	2019	Change	Change %
Total visits	2 658	2 661	Decrease	0%
Total deviations	121	110	Increase	10%
Deviation percentage	5%	4.1%	Increase	10%

These visits were spread over the country as follows:

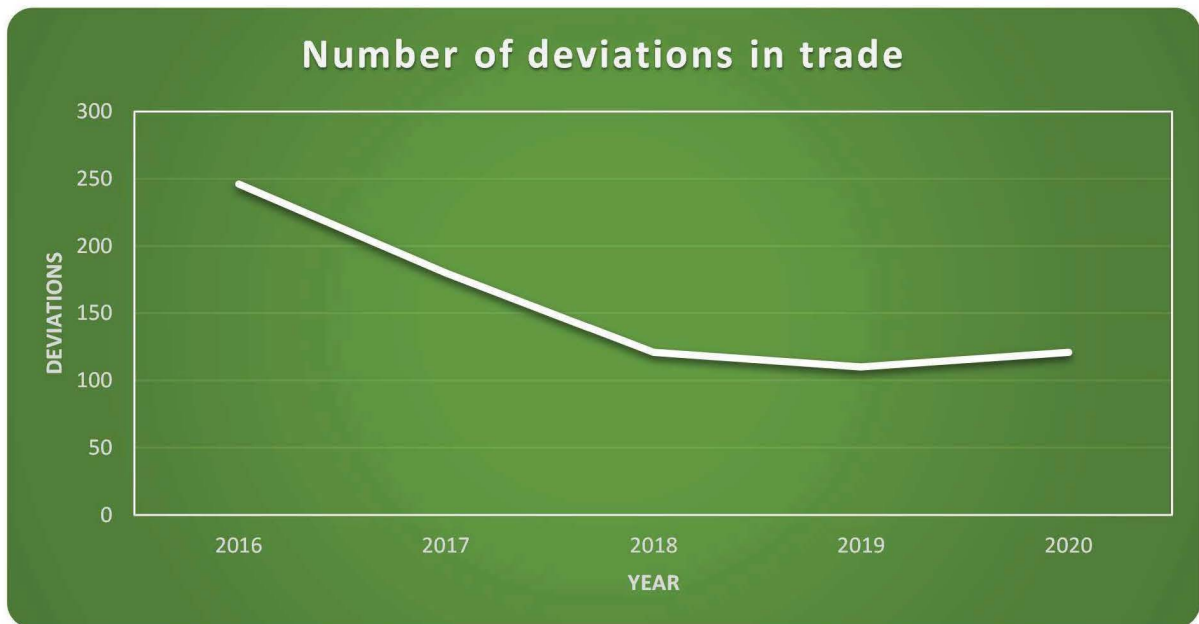

Deviations from Regulations- Trade

on fatness classification, conformation and damage codes and deviations used in relation to advertisements, noticeboards and other means (Regulation 23(5).s).

There is still an indication that the meat trade is not aware of the importance of correctly labelling imported meat products, to distinguish imported meat from local meat for the consumer at the point of sale.

The trend of Deviations at the Trade is increasing in this year as reflected by the graph and the table. Trade owners also received in some instances warnings regarding Deviations applicable to the Agricultural Product Standards Act, Act Nr 119 of 1990.

When the deviations are found regarding the classification characteristics of carcasses / meat at trade outlets, eg deviations of fatness classification, untidy and smudged roller-marks, they are immediately reported telephonically to the Regional Co-ordinator in whose region the abattoir/s of origin is/are situated. He/she can then institute rectifying steps.

Quality Indication Marks

Quality indication marks, as a marketing tool, is becoming more important in the red meat industry and some suppliers have already successfully developed niche markets for their quality indicated products. Traceability forms an integral part of quality indication marks and it is therefore important that the traceability system of a quality indication mark be firmly established and verified by an independent authority.

The current year has seen an increase in the number of audits done for quality indication marks with a consistent number of quality indication marks being audited.

Quality Indication Marks:	2020	2019	Change
Number of audits done	2 843	2 792	Increase
Number of quality indication marks	41	41	Same
Number of deviations	97	686	Increase
Percentage deviations	3.4%	2.4%	Increase

The following table indicates the number of audits performed per quality mark by the various inspector/ auditors. Instances of non-compliance is indicated in the "NC" column.

Financial Results

The financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008. The accounting policies have been applied consistently compared to the prior year.

In the face of the adverse climatic conditions experienced in the current year in agriculture and the red meat industry, SAMIC experienced a stable and successful business year.

SAMIC experienced a slight decrease in revenue in the current year when compared to that of the prior year which contributed to a decreased comprehensive income. The investments held experienced favourable growth in the current year. Due to the continued positive annual results SAMIC's retained equity continued to show positive growth. The cash flow of the company declined in comparison to that of the prior year.

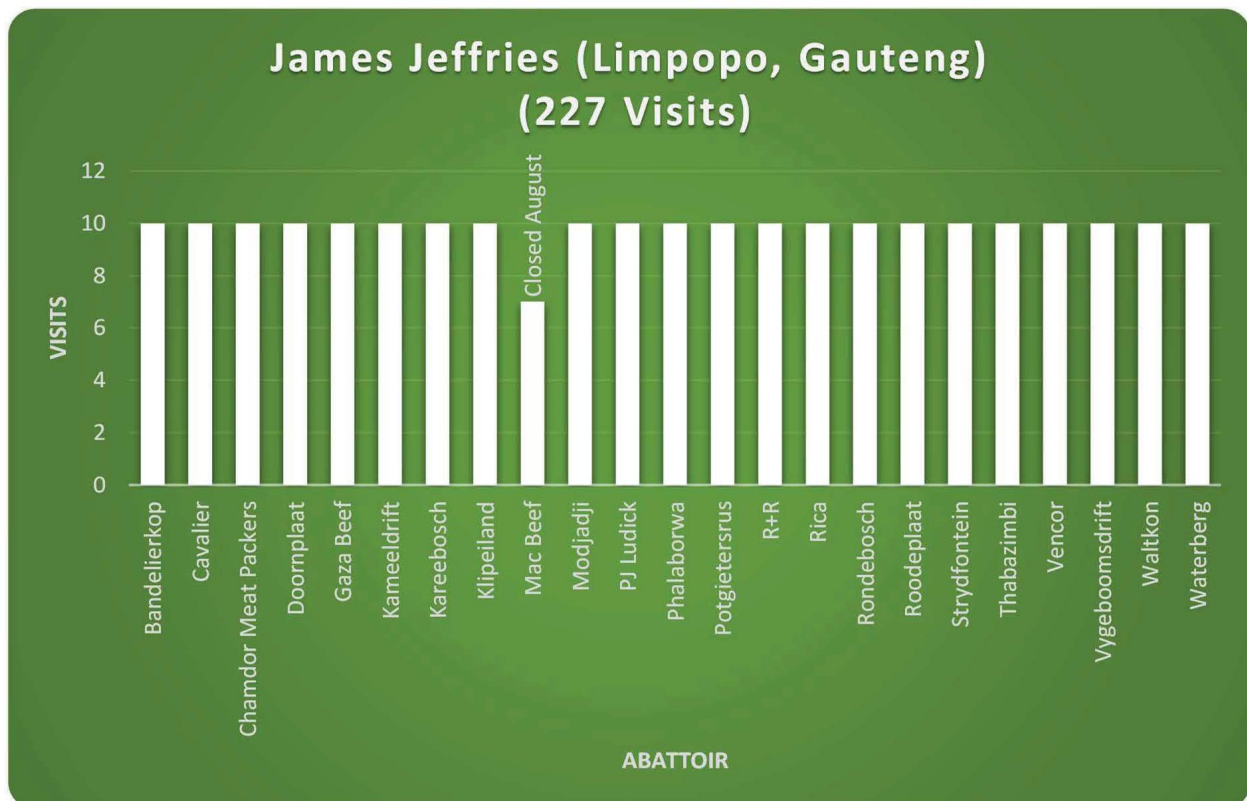

The directors believe that the company has adequate financial resources to continue in operation for the foreseeable future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient funds to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

JTC Chartered Accountants (S.A) Incorporated continued in office as auditors for the company for 2020 and issued an unqualified audit report.

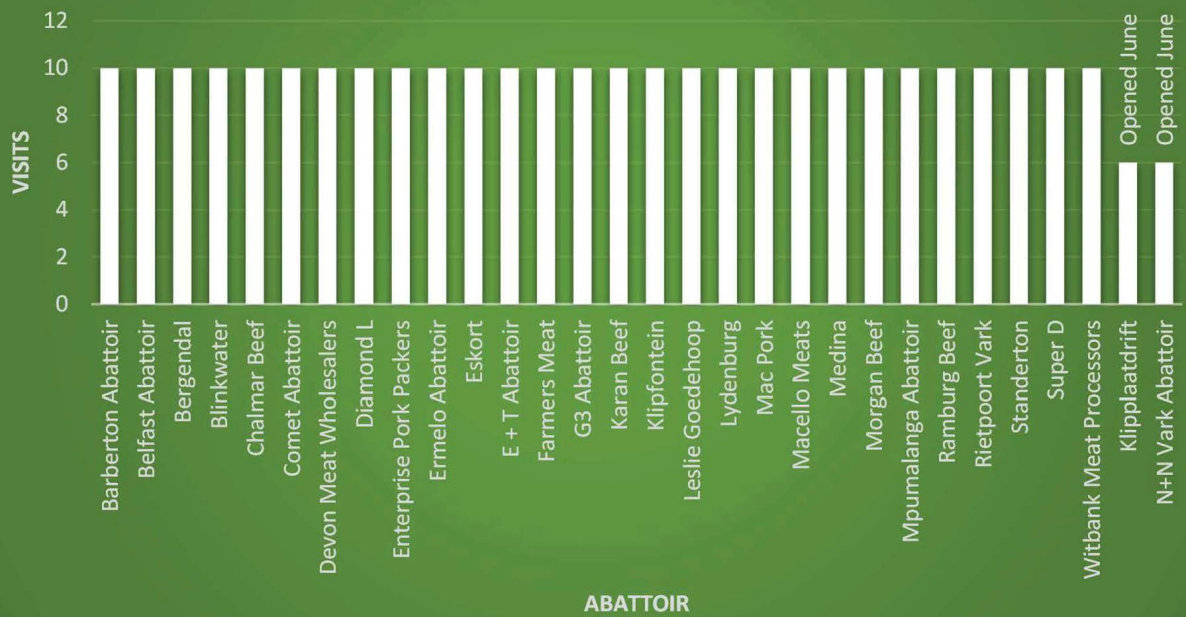

For the abbreviated financial statements refer to the **2020 Abbreviated Financial Statements** section. The complete audited financial statements are available at the offices of the South African Meat Industry Company NPC.
