

A large flock of white sheep is grazing in a field of tall, golden-brown grass. The sheep are scattered across the frame, with some in the foreground and others receding into the distance. The background is slightly blurred, showing a line of trees under a bright sky.

# 2025 SAMIC Month report

## August

# Executive summary

During August, 791 audits were conducted at the designated producers, auctions, feedlots, abattoirs, meat processors, and traders. A 15% regulatory deviation rate was identified, and all deviations were suitably addressed. The deviations primarily related to incorrect classification, incorrect age determination and poor quality of roller marking. Dressing standards' deviations were low with only one on beef and one of small stock. On pork there were no dressing standards deviations recorded.

With the withdrawal and subsequent reinstatement of an abattoir's code, a reinstatement of another, previously deregistered and the registration of one new abattoir, we are now on 194 registered, classifying abattoirs from the previous 191. This demonstrates a positive movement of the meat industry.

11 compliance audits at auctions were conducted in August, showing an increase in awareness and necessity by livestock auctioneers, given the country-wide focus on the Foot & Mouth and other animal communicable diseases.

The wool market maintained an upward momentum with strong competition driving a 95% sales clearance across all categories. Wool indicators have shown small, yet consistent improvements between 1% and 1.4% points. This has culminated in record prices being realised over the last period. September also promises good sales in volume and value.

The Annual National Carcass Competition's ultimate preparations are being made for this year's final prize-giving ceremony scheduled for September. This Gauteng based function promises a prestigious event with many industry bodies and dignitaries. We are very excited to have a few new surprises and announcements about future competitions, new focus points and strategic initiatives which will be discussed on the night.

The SAMIC digitalisation project has reached 34% completion, on target, on time and on budget. During August we completed the cloud infrastructure and databases setup and finalised the business requirement documentation for the web application. September focuses on completing the application structure, routing, and component architecture setup, implementing authentication services and finalising stakeholder feedback on the mobile application. We are also starting to work on the requirements of hardware for in-field testing.

Thank you to the SAMIC team for their tireless dedication and to those supporting SAMIC's work.

Kind regards,  
Tom

## 17. Meat classification service

The following key compliance issues were recorded during the month. A written warning was issued for teeth not indicated on the atlas joint. Another written warning was issued for untidy and illegible stamp marks and no correlation numbers on the heads. The classification code of one classifier was revoked for pork classification. One classifier received a warning for classification equipment that was worn and broken. The classification code of one abattoir was temporarily withdrawn due to foot-and-mouth disease but was later reinstated. Another abattoir ceased slaughtering, and its classification code was withdrawn. One new abattoir registered for classification during the period.

Classifiers are reminded to check classification equipment regularly, with particular attention to roller-mark equipment, and to replace inserts where necessary. Faulty equipment must be reported immediately to managers and supervisors, rather than waiting for visits by the SAMIC regional auditor or inspector. Order forms may be obtained from the SAMIC regional auditor or inspector, who should also be consulted if there is any uncertainty regarding Type A or Type B equipment.

## 18. Wool and Mohair

The wool market continued on its upward trend from the opening sale of the season and once again delivered good results across all micron categories. Stronger competition for the good quality individual clips on offer resulted in an overall sales clearance of 95%. The all-merino indicator closed up by 1% on R179,53 p/kg and the certified indicator increased by 1,4% to close on R184,35 p/kg. A highest price of R246,36 p/kg(clean) was paid for a 2-bale lot of 16,4-micron merino wool. The next sale will be held on 10 September 2025 when approximately 5 165 bales will be on offer.
