Chairman's Report

By Dr John Purchase
Chairman of SAMIC

The South African Meat Industry Company (SAMIC), a not-for-profit company (NPC), was established by the thirteen members of the Red Meat Industry Forum (RMIF) to benefit the red meat industry and consumers alike. It is an institution that contributes greatly to the food security of South Africa.

As an assignee of the Department of Agriculture, Land Reform and Rural Development, SAMIC's primary functions are to audit / inspect independently, impartially and with integrity, the standards of Meat Classification at voluntary participating abattoirs, Quality Indication Marks and Meat Outlets. These voluntary participating abattoirs slaughter more than 97% of the current total red meat slaughtering figures annually in South-Africa.

It similarly performs related quality control functions for associated industries, such as the Hides and Skins, Mohair and Wool sectors. Since April 2023 SAMIC also verifies the biosecurity measures introduced by the Minister of Agriculture, Land Reform and Rural Development to prevent spread of contagious animal diseases, primarily Foot and Mouth Disease (FMD), at livestock auctions. This function is performed in collaboration with the APAC Council, established by Section 2 of the Agricultural Produce Agents Amended Act (2003).

SAMIC has continued to meet and exceed all its objectives and the expectations of its stakeholders and clients during the past fiscal year.

This service of excellence by our loyal and hardworking personnel needs to be recognized and on behalf of the Board, I extend my sincere thanks and appreciation to the personnel, and specifically also to the management team under the leadership of the Executive Director, Mr Rudi van der Westhuizen. Not only have they kept the ship afloat but exceeded all expectations in attending to classification inspections and audits, quality indication mark audits, and import and export verifications. I also wish to thank our government counterparts (DALRRD) for their continued support and confidence in SAMIC's activities. High standards have been set, and these need to be maintained to assist the growth and development of the red meat and associated industries.

This past year the Board of SAMIC, with support from all stakeholders at the Annual General Meeting (AGM) held in August 2023, reduced the size of the Board to four independent non-executive directors and one Executive Director in order to keep the cost structure as low as possible, but without compromising on governance responsibilities. At said AGM Dr John Purchase (Chairperson), Dr Langa Simela, Mr Hamlet Hlomendlini and Mr Simon Streicher were re-elected to the Board. The Executive Director, Mr Rudi van der Westhuizen, retired at the end of 2023 and the Board wishes him a well-earned retirement. Since September 2023, the Board has engaged pro-actively in recruiting a suitable replacement to lead SAMIC into a future world of new challenges and opportunities.

The Board remains configured to ensure impartiality, integrity and total independence from any narrow industry interests, and in line with the assignee prescripts of the Act in this regard. The Board has functioned very well in executing its governance responsibilities, with total commitment and diligence from all directors. Due to the relatively small board and cognisant of limited resources, the board has no sub-committees but directly oversees the integrity of audit, risk, remuneration, internal financial control, ESG and related matters and

functions. This is however up for review in the next fiscal year. I sincerely thank the Board of Directors for their unselfish and dedicated contributions.

Accrediting bodies

SANAS
South African National Accreditation System.

SANAS is recognised by the South African Government in Act 19 of 2006 as the single National Accreditation Body that gives formal recognition that amongst others, Inspection Bodies are competent to carry out specific tasks. Following the **SANAS** Approval Committee meeting on 31 August 2022, unconditional accreditation has been granted in accordance with ISO/IEC 17020:2012 to **SAMIC** (INSP0036) to supply the service of an inspection body as an assignee by the Department of Agriculture, Land Reform and Rural Development (DALRRD) in terms of Regulations No. 55 of 2015, Agricultural Product Standards Act, 1990 (Act No. 119 of 1990) as amended.

SAATCA
South African Auditor & Training Certification Authority.

SAATCA's mission is to recognize and address amongst others the need within the Southern African industry for competent and credible Product and process Auditors who can deliver both professional and value-adding auditing services to support, enhance and positively impact strategic, operational and organization-wide performance objectives in pursuit of optimal business excellence, thus ***"Raising business confidence". SAMIC*** is a member of SAATCA and all our auditors are registered with **SAATCA.**

SAACB
Southern African Association of Certification Bodies.

The **SAACB** was founded in May 1998 and is an industry association of certification bodies – the primary requirement for full membership being that the certification body is accredited and that all members agree to abide by a professional code of conduct. Associate membership is available to those certification bodies who are actively seeking and have applied for accreditation or other organizations that support the work of the **SAACB**.

The Association meets quarterly to discuss matters of interest in the certification community with the mission of promoting accredited certification in Southern Africa. The Association covers personnel, product, and management system certification.

Although based in South Africa, members operate in Southern Africa or the Indian Ocean Islands. The **SAACB** is a registered Section 21 organization not for profit company (NPC). Professional competition is promoted to ensure that the client receives value in the certification process.

The Association is a registered non-profit company concerned with the promotion of accredited certification.

Classification Coordination

The Department of Agriculture, Land Reform and Rural Development assigned SAMIC the responsibility of ensuring that appropriate meat classification standards are applied in a uniform manner at those abattoirs that register voluntarily for the classification of their carcases. This is according to the "Regulations regarding control over the sale of products in the Republic of South Africa" in the Agricultural Product Standards Act, 1990 (Act No. 119 of 1990), and its regulations.

During 2023 various activities took place with regard to Standards Control, Co-ordination Inspection, Assessing of Meat Classifiers, Carcass Competitions, Quality Assurance (Branding), Inspections at Classifying and Non-Classifying Abattoirs for Agricultural Levy Services purposes and Auditing of Hides and Skins and Wool and Mohair for Export purposes.

Corporate Governance

Preface

SAMIC supports the Code of Corporate Practices and Conduct as a manner of conducting the affairs of the Company with integrity and in accordance with the standards of corporate practice.

Board of directors

The directors endorsed and, during the period under review, applied the Code of Corporate Practices and Conduct as set out in the King Report. By supporting the Code the directors have recognized the need to conduct the enterprise with integrity and in accordance with generally accepted corporate practices.

Financial statements

The annual financial statements are the responsibility of the Company's directors and fairly represent the state of affairs and the results of the Company. The external auditors are responsible for independently reviewing and reporting on these financial statements.

Internal control

The directors are responsible for instituting an effective system of internal control. In order to fulfil its responsibilities, management maintained adequate accounting records and developed and continued to maintain systems of internal records.

Management reporting

Management reporting disciples are in place, which include the preparation of the annual budget. Monthly results and the financial statements are reported against approved budgets and compared to the previous year.

Abattoirs

Abattoir Visits

The number of abattoirs that are registered as participants in the meat classification system decreased from the previous year:

	2023	2022	Change	Change %
Registered abattoirs	191	205	Decrease	-7%

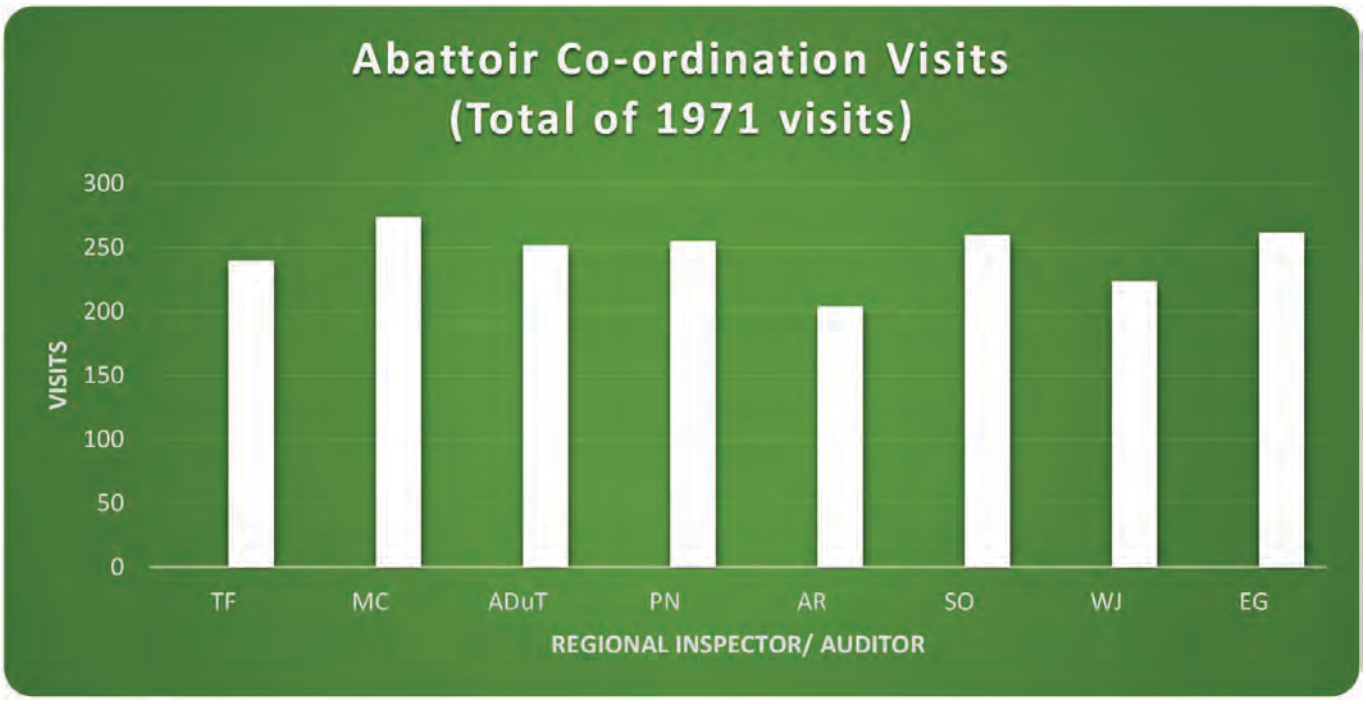

The classifying of species of the above abattoirs are:

Specie	2023	2022	Change	Change %
Beef	143	157	Decrease	-9%
Small stock	150	161	Decrease	-7%
Pork	88	94	Decrease	-6%

All registered abattoirs were subjected to at least ten unscheduled audits per year to ensure that classification standards are applied consistently and on a continuous basis. The total visits and deviations found from the regulations:

	2023	2022	Change	Change %
Total visits	1971	2 072	Decrease	-5%
Total deviations	258	252	Increase	2%
Deviation percentage	13%	12%	Increase	8%

The visits were spread over the country as follows:

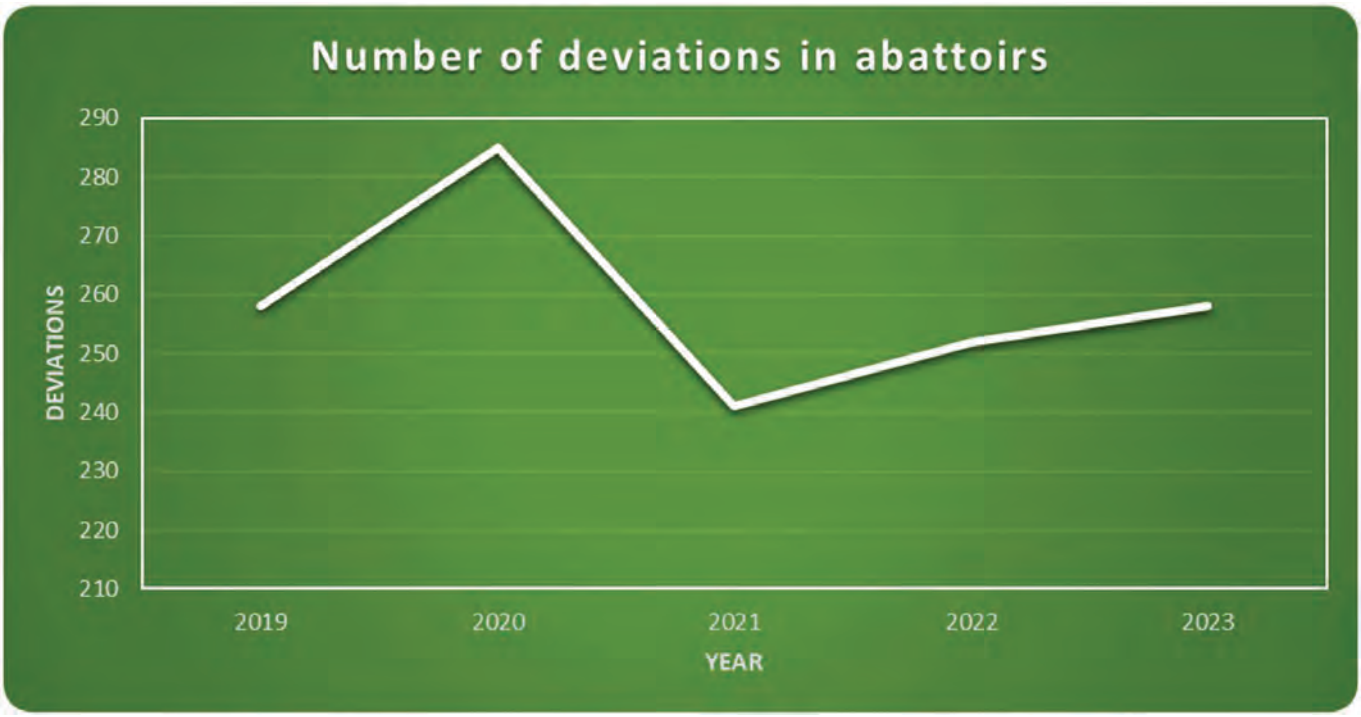

For detail of the number of visits performed by regional inspector/ auditor at each abattoir refer to the **2023 Abattoir Co-ordination Visit** section.

	Total	**258**	**285**	**241**	**252**	**258**

The most prominent problem area was with the number of deviations of fatness classification, conformation and damaging codes and the measurement position for pork classification is incorrect. For detail of the deviations of fatness per abattoir refer to section **2023 Average % Deviations of Fat Codification Standards.**

The trend of deviations at abattoirs is increasing in this year as reflected by the graph and the table, especially with deviation of fatness classification, conformation and damaging codes.

The number of deviations noted is directly the result of the lack of experience of meat classifiers at the particular abattoirs, where a turnover of 25% – 30% of meat classifiers in South Africa is experienced for the past year. New meat classifiers are assessed by SAMIC as discussed in the **Assessing of Meat Classifiers** section.

As soon as a deviation is observed, the classification, or element is rectified/reclassified by the auditing body (SAMIC) in accordance with allowance made for in the APS Act. A corrective action report is made out and issued by SAMIC to the abattoir and third-party service provider concerned.

To rectify these deviations noted, meat classifiers of the third-party service provider undergo refresher training where deviations exceed 6% at the respective abattoir. Refer to the **Refresher courses** section for further details.

Service Fee for Co-ordination

The Red Meat Industry Forum recommended an annual increase of 6% on co-ordination fees, in 2023. This escalation was published for comments and after none were received, the 6% was approved on SAMIC's AGM.

Assessing of Meat Classifiers

SAMIC is responsible for the assessing of meat classifiers. During 2023 classifiers as indicated in the table below qualified to classify either one, two or all three species.

Assessing of Meat Classifiers:	**2023**	**2022**	**Change**
Beef	13	19	Decrease
Small Stock	13	18	Decrease
Pork	14	20	Decrease
Total classifiers assessed	**40**	**57**	Decrease

For detail of the persons assessed as meat classifiers in the current year refer to the **2023 Assessing of Meat Classifiers** section.

Refresher courses

SAMIC conducted standard refresher courses for beef, small stock and pork carcasses with attendance by meat classifiers as follows:

Refresher Courses:	**2023**	**2022**	**Change**
Beef	79	44	Increase
Small Stock	101	122	Decrease
Pork	44	47	Decrease
Total attendees of refresher courses	**224**	**213**	Increase

For details of the refresher course attendees for the current year refer to the **2023 Meat Classification Refresher Courses** section.

National Carcass Competition

The National Carcass Competition has grown in stature over the years - from a small beginning in 1984 when there were only four beef carcass competitions to the following for the current year:

It is estimated that 392 commercial and 34 emergent producers are currently taking part in this competition on a countrywide basis.

The importance and value of this competition have for some time been underestimated by the red meat industry. The continuous emphasis on meat quality worldwide ties in with the aims of the competition, i.e. to produce carcasses according to market specifications and consumer requirements.

During the July 2022 to June 2023 cycle, 33 sponsorships were received. Total price-money were ***R 380 500,00*** from our sponsors namely:

SPONSORSHIPS	
Beefmaster	Nedbank
Cape Gate	NWK Beperk
Cavalier Foods	PIC
Checkers	Rica Abattoir
CPS International	RPO Nasionaal
Crown National	SAVPO
Danbred	Serdev

The quality of the entrants received in the current cycle has been from the best since the start of the competition 39 years ago. The following summary of results is indicative of this fact. The quality of the entries is currently on a very high level for the National Competitions for beef, lamb and goat carcasses. However, there are still opportunities for increasing the participation by emergent farmers.

There has been an overall decrease in the number of entries received:

NUMBER OF ENTRIES			
Commercial farmers			
Number of entries	**2022**	**2023**	**Change**
Beef	267	205	Decrease
Sheep	655	2208	Increase
Goat	35	64	Increase
Pork	56	809	Increase

Pork	107	147	Increase
Total	**284**	**310**	Increase
Overall	**1 297**	**3 596**	**Increase**

During this cycle, highest points were awarded to a Beefmaster carcass in the beef carcass competition, to a Dorper carcass in the lamb carcass competition, to a Boerbok carcass in the goat carcass competition and to PIC in the pork carcass competition.

For details of the national carcass competitions for the current year refer to the **2023 National Carcass Competitions** section.

Cleaver Awards

An initiative of the South African Red Meat Industry Forum, these awards acknowledge butcheries, which meet consumer expectations on in-store hygiene, the supply of quality assured roller marked South African Beef, their level of competency in offering the best advice on meat preparations and perceived value for money. The Cleaver Awards were introduced in 2005 to meet the needs of the consumer by raising the standards among butcheries. Since these awards started 19 years ago, butchery standards have improved and feedback from customers show that the majority perceive the Cleaver Awards to be a seal of approval. SAMIC conducts the audits for the Cleaver awards.

No cleaver award audits were done for 2023.

Meat Samples

Meat samples are collected nationally from butcheries and retailers. These samples are analysed for DNA at the South African National Biodiversity Institute (SANBI) at the National Zoological Gardens (NZG) and ingredient testing is done at IDEXX. Both these laboratories are accredited facilities. Appropriate action is taken based on results.

No meat sample audits were done for 2023.

Visits at Abattoirs Not Classifying

The visits by our regional co-ordinators to non-classifying abattoirs are shown in the table below. The aim of the visits is to ensure that all abattoirs in the country are registered for paying levies to the Red Meat Levy Administrator. The same rules apply for all meat outlets in the country.

ClassiQuip

ClassiQuip, a division of SAMIC, is the sole agent to distribute all classification equipment in the red meat industry. Stamps, for example age identification, fatness, conformation, damage and M/D classes as specified in the regulations, as well as roller-marking equipment and edible ink with specifications for each purpose for the marking of carcasses, are supplied.

Trade

Trade visits

SAMIC conducts butchery inspections to verify compliance to the regulations regarding the classification and marking of meat intended for sale in South Africa, to prohibit the unlawful use of certain indications and claims on the meat. This includes packaging, advertisements, notice boards and any other means of communication.

The total visits made to the meat trade and the deviations from regulations found by SAMIC regional managers:

	2023	2022	Change	Change %
Total visits	2 847	2 835	Increase	0%
Total deviations	124	128	Decrease	-3%
Deviation percentage	4.4%	4.5%	Decrease	-4%

These visits were spread over the country as follows:

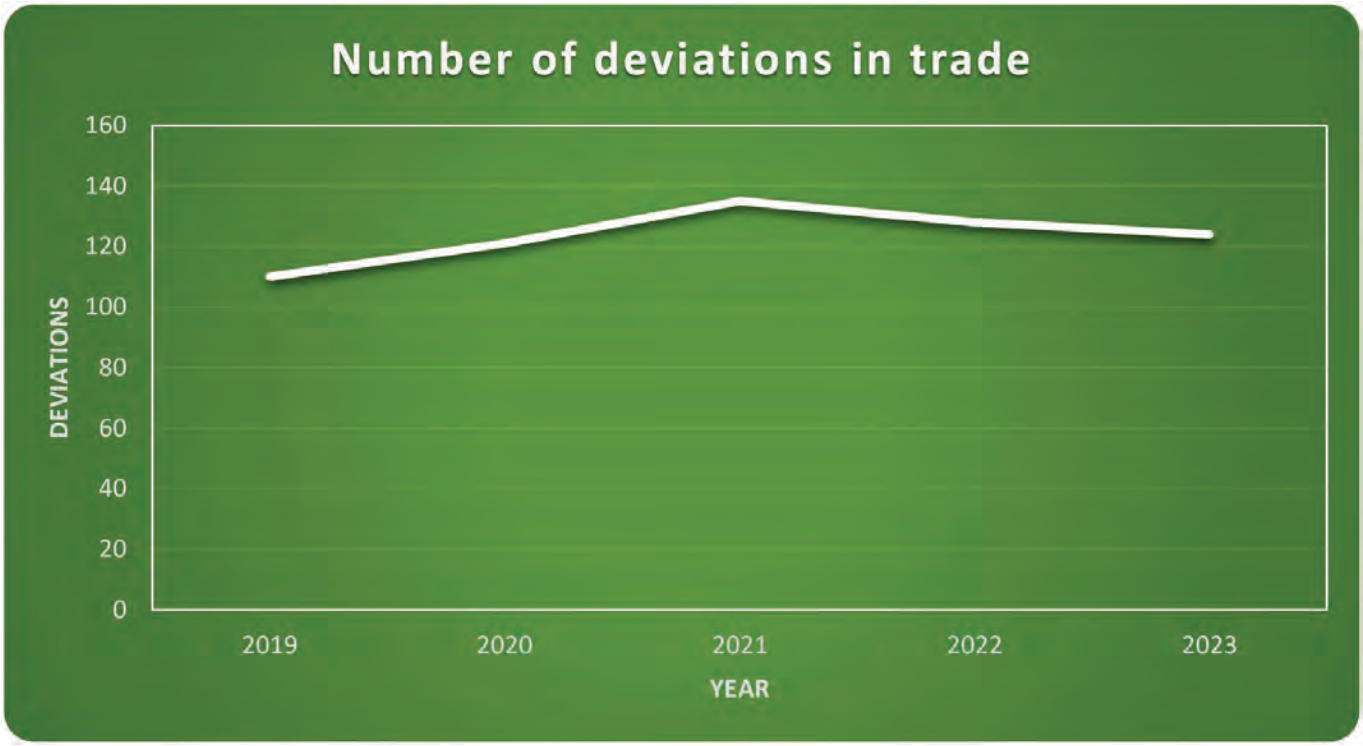

Deviations from Regulations - Trade

The major problems were prohibited and restricted particulars on meat, classified mutton sold as lamb, other and unaudited quality indications on meat.

The trend of Deviations at the Trade is decreasing in this year as reflected by the graph and the table. Trade owners also received in some instances warnings regarding Deviations applicable to the Agricultural Product Standards Act, Act Nr 119 of 1990.

When the deviations are found regarding the classification characteristics of carcasses / meat at trade outlets, e.g. deviations of fatness classification, untidy and smudged roller-marks, they are immediately reported telephonically to the Regional Auditor/ Inspector in whose region the abattoir/s of origin is/are situated. He/she can then institute rectifying steps.

Quality Indication Marks

Quality indication marks, as a marketing tool, is becoming more important in the red meat industry and some suppliers have already successfully developed niche markets for their quality indicated products. Traceability forms an integral part of quality indication marks, and it is therefore important that the traceability system of a quality indication mark be firmly established and verified by an independent authority.

The current year has seen a decrease in the number of audits done for quality indication marks with a reduction in the number of quality indication marks being audited.

Quality Indication Marks:	**2023**	**2022**	**Change**
Number of audits done	2 840	2 973	Decrease
Number of quality indication marks	35	38	Decrease
Number of deviations	97	64	Increase

The following table indicates the number of audits performed per quality mark by the various inspector/ auditors. Instances of non-compliance is indicated in the "NC" column.

Financial Results

The financial statements have been prepared in accordance with International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act 71 of 2008. The accounting policies have been applied consistently compared to the prior year.

SAMIC generated a surplus after tax for the year ended 31 December 2023 of R3,837,481 (2022: deficit of R155,038).

This year the income from investments was R1,5 million (2022 - R1,1 million) and the positive fair value adjustment was R2,1 million (2022 - negative fair value adjustment R691 000).

The application made to the Compensation Fund in 2015 to revisit the rate at which SAMIC is assessed was eventually finalised in May 2024. The outcome of this was that the Office of the Compensation Commissioner revised the assessments from 2013, which resulted in a net credit due to the company of R361 925, after considering the assessment for the 2024 year. The provision of R2 million accumulated since 2015 was therefore also reversed in this fiscal year.

SAMIC's revenue decreased from R30,617,625 in the prior year to R30,490,615 for the year ended 31 December 2023. Company cash flows from operating activities changed from an outflow of R848,176 in the prior year to an inflow of R697,396 for the year ended 31 December 2023.

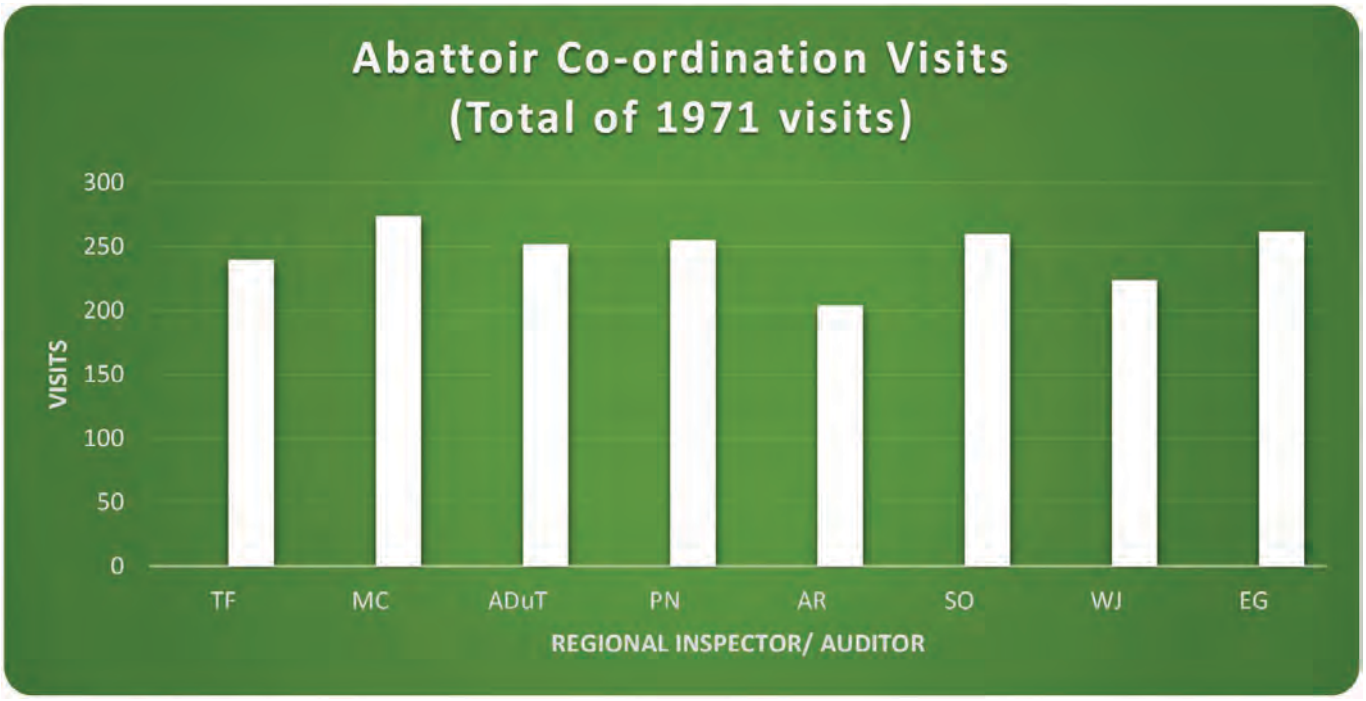

The directors believe that the company has adequate financial resources to continue in operation for the near future and accordingly the financial statements have been prepared on a going concern basis. The directors have satisfied themselves that the company is in a sound financial position and that it has access to sufficient funds to meet its foreseeable cash requirements. The directors are not aware of any new material changes that may adversely impact the company. The directors are also not aware of any material non-compliance with statutory or regulatory requirements or of any pending changes to legislation which may affect the company.

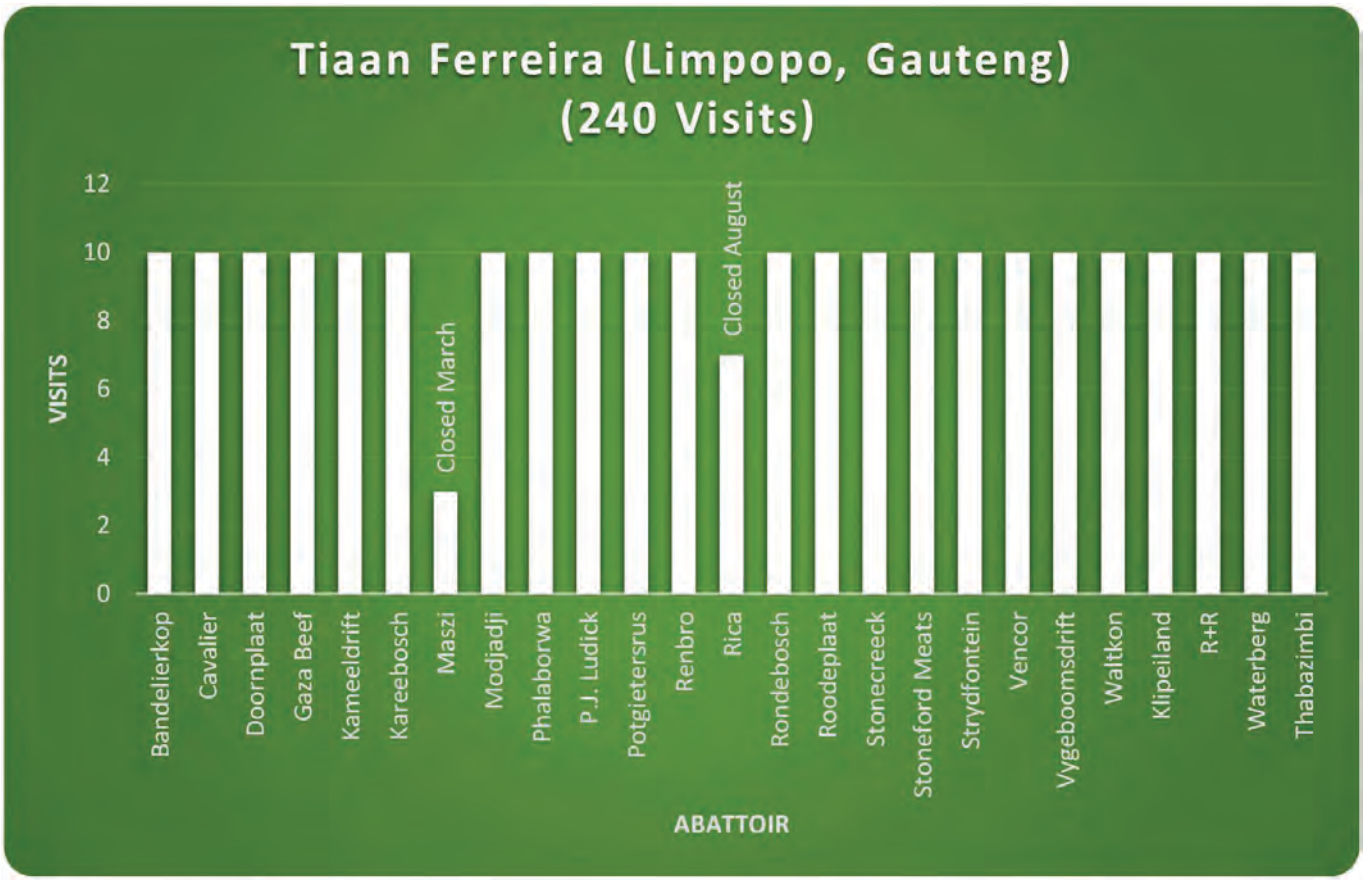

Nova Sententia Incorporated were the auditors for the company for 2023 and issued an unqualified audit report.

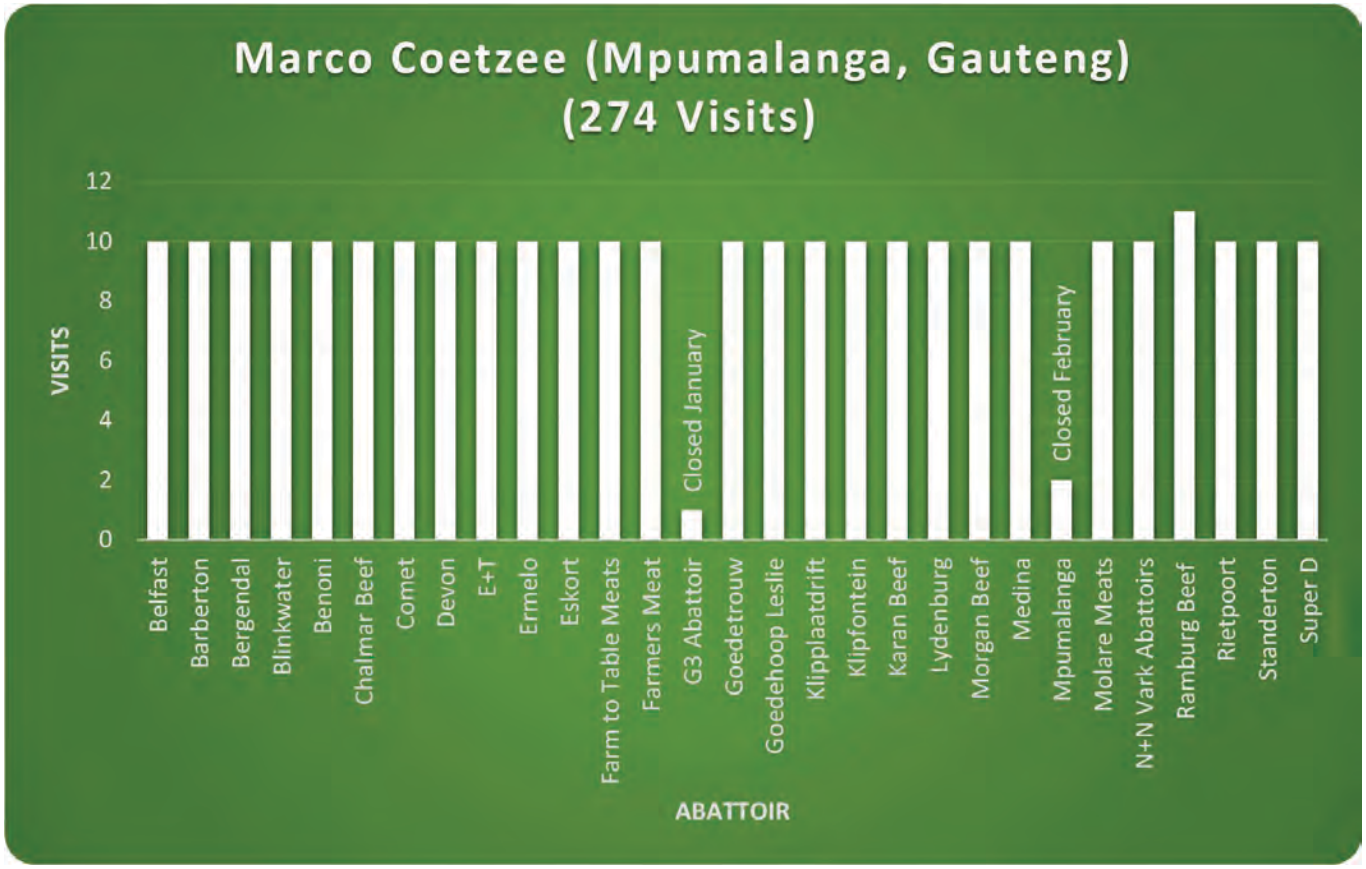

For the abbreviated financial statements refer to the **2023 Abbreviated Financial Statements** section. The complete audited financial statements are available at the offices of the South African Meat Industry Company NPC.
